

Soothing Lotus Announces New Premium Ultrasonic Essential Oil Diffuser

May 06, 2015

May 06, 2015 - PRESSADVANTAGE -

Soothing Lotus, a company based on environmental and eco-friendly attitudes, has announced their latest product, a premium ultrasonic essential oil diffuser. The product is available for sale through the company's Amazon sales portal found at <http://www.amazon.com/Ultrasonic-Soothing-Environment-Eco-Friendly-Aromatherapy/>. It is being offered at the sale price of \$49.97, which is indicated on the Amazon page as a 47% discount from the regular price.

The Soothing Lotus Essential Oil Diffuser offers 6 relaxing LED colored lights. The diffuser disperses the scents into the air while creating a comforting ambiance. The company has explained that the product was created in order to bring the soft soothing scents of nature, and the feel of a spa, into the homes and offices of its users. Krysti Horwitz, Co-Founder of Soothing Lotus, states that:

"Soothing Lotus is dedicated to crafting superior aromatherapy products - that are easy to use, extremely reliable and won't break your budget. We actively support open communication and strive to deliver 100% transparency in every aspect of our business."

By visiting the Amazon page for the ultrasonic essential oil diffuser, consumers can see that the product has the ability to turn several different colors including pink, yellow, blue, green, purple, and white. Each diffuser offers a 150ml water tank large enough to run for up to 4+ hours, and is said by Soothing Lotus to offer whisper-quiet delivery for use at night or during business hours. The machines automatically shut off when the water tank is empty, which the company promotes, as it makes them safe for use during sleeping as well as waking hours.

The oils that can be used in the ultrasonic essential oil diffuser are recommended to be pure essential oils instead of synthetic oils. Consumers who visit the company site at www.soothinglotus.com can enter to win \$25 worth of essential scented oils such as tea tree, peppermint, eucalyptus, sweet orange, lemongrass, and lavender. Each scent is described in detail on the company blog, which supplies insight and information on the many uses of aromatherapy along with benefits of individual oils.

The Soothing Lotus Essential Oil Diffuser can be used anywhere, including in the home, workplace, or even in a spa setting. The company has built the device to be light weight and portable for easy transport, and each has been crafted using eco-friendly BPA-free ingredients. Krysti Horwitz explains:

"Our mission is to offer our customers the highest-quality aromatherapy products; permitting them to transform their workplace, home or vacation destination into their own personalized aromatherapy spa."

For more information on the products, or to purchase a Soothing Lotus Essential Oil Diffuser, the company encourages consumers to visit the Amazon sales page, which offers sales support, one click buying, and a long list of product characteristics and benefits. There is also a 100% customer satisfaction guarantee in place, allowing unhappy consumers to return the product if dissatisfied, with no questions asked.
