

Can't Be Beat Fence Co LLC Marks 43 Years as a Leading Mississippi Gulf Coast Fence Company

August 24, 2026

Crane Creek, Mississippi - August 24, 2026 -

Can't Be Beat Fence & Construction, LLC has reached a significant milestone, marking 43 years of continuous operation as a fence company serving communities across the Mississippi Gulf Coast, including Ocean Springs, Gulfport, Biloxi, Pass Christian, and Pascagoula. Since opening in 1982, the firm has completed the installation of more than 20,000 fences throughout the region.

The company provides fencing services for residential, commercial, and government clients. Its residential offerings include aluminum fences, chain link fences, vinyl fences, and wood fences, each of which can be adapted to the specific needs of homeowners. On the commercial side, the company has worked as a subcontractor on more than a thousand industrial projects and sites. Its government work includes fence installations on dozens of military and government complexes across the Southeastern United States, supported by background-cleared employees for secure facilities.

Over more than four decades, Can't Be Beat Fence has remained an established name in the area while

many other fencing contractors have come and gone. The company attributes this longevity to its experienced workforce, which includes full-time estimators and installers whose average tenure exceeds ten years. The firm also maintains an award-winning safety program.

"Reaching 43 years in this industry reflects the trust that Gulf Coast residents and businesses have placed in the company over multiple generations," said Meredith Anderson, a company representative. "Every project, from a backyard wood fence in Ocean Springs to a secured perimeter at a government installation, receives the same attention from a team that has spent years refining its craft."

The company guides each customer through the selection, estimation, scheduling, and site preparation process. Estimates are provided free of charge, either over the phone or through on-site visits, and no payment is required in advance. Property owners who choose to contract our team of experts receive support from full-time installers who complete each project to the customer's specifications.

"Fencing decisions involve considerations of durability, appearance, and function that vary from one property to the next," Anderson added. "The goal has always been to help clients understand the options available to them, whether that means chain link for a commercial lot in Gulfport or ornamental aluminum for a residence in Pass Christian."

The company serves an extensive area that includes Biloxi, Pass Christian, Gautier, Gulfport, Moss Point, Pascagoula, Poplarville, and Waveland, along with surrounding counties across South Mississippi. Commercial and industrial service extends throughout Mississippi, Alabama, Louisiana, and the wider Southeast for federal and Department of Defense installations.

Can't Be Beat Fence & Construction, LLC is a fence contractor based in Perkinston, Mississippi, and has grown into one of the Southeast's larger fencing contractors. The company is a member of the American Fence Association and the Associated Builders and Contractors, and maintains a profile with the Better Business Bureau. Its services span residential fencing, commercial fencing, government fencing, and sports fencing throughout the Mississippi Gulf Coast. The company can be reached by phone at (228) 255-9040.
