

Youssi Custom Homes of Iowa Introduces Virtual Tours for New Homes for Sale at Forest Grove Crossing

August 07, 2026

BETTENDORF, Iowa - August 07, 2026 -

Youssi Custom Homes of Iowa has integrated interactive virtual tour technology across its Forest Grove Crossing development in Bettendorf, allowing prospective buyers to explore ranch villas and condominiums remotely before scheduling in-person visits. The enhancement is now available through the company's updated website.

The virtual tour technology provides interactive walkthrough videos that let potential homeowners examine floor plans, architectural details, and interior finishes at their own convenience. The Forest Grove Crossing development offers properties ranging from 1,313 to 1,565 square feet, located within the Pleasant Valley School District in the Quad Cities region, which comprises Davenport, Bettendorf, Rock Island, and Moline.

The development, known as The Condos at Forest Grove Crossing, sits within a district recently recognized by MSN as the top-rated school district in Iowa. The digital tour capability responds to a growing preference among home shoppers for remote property research, giving buyers the ability to review multiple layouts and

design elements before visiting the site.

Shane Youssi, President of Youssi Custom Homes of Iowa, said the addition of virtual tour technology reflects the company's effort to align with modern buyer expectations. "Prospective buyers increasingly want to explore properties on their own schedule, and this technology allows them to experience the quality and craftsmanship of these homes from anywhere," Youssi said.

The ranch villas and condominiums at Forest Grove Crossing feature craftsman-style exteriors, cedar brackets and corbels, nine-foot ceilings, luxury vinyl plank flooring, Cambria quartz countertops, and GE stainless kitchen appliances. Condominium layouts include a 1,313-square-foot, two-bedroom design and a 1,565-square-foot, three-bedroom design, while the ranch villas offer full unfinished basements and heated garages.

According to Youssi, the materials used across the development are sourced from established American manufacturers, including custom cabinets, natural stone, and domestically produced flooring. "The construction standards remain consistent across every unit, and the virtual tours are designed to show that level of detail accurately," Youssi said.

Additional information about the development and ongoing updates can be found through the company's social media channels. Readers who came across this article and news article about the development can view the interactive tours directly on the company website.

Youssi Custom Homes of Iowa is a division of Youssi Real Estate & Development Inc., which has been serving customers for more than three decades. The company has developed residential properties since 2003, with a portfolio exceeding 500 condominiums across Iowa and Illinois. Its work spans condominiums, townhomes, and higher-end custom single-family residences, with a focus on energy efficiency, craftsmanship, and quality materials. The company originally built and developed properties in Boone, DeKalb, and Winnebago Counties of Illinois before expanding its operations to Bettendorf, Iowa, where the Forest Grove Crossing development is located within the Pleasant Valley School District.
