

4-D Lawn & Landscape Contracting Large Government Landscaping Work In The US

May 24, 2016

May 24, 2016 - PRESSADVANTAGE -

4-D Lawn & Landscape, a woman-owned small business in Lawton, OK, is proud to announce that they have traveled across the country to complete a number of very large government landscaping jobs. The company is HUBZone Certified and does everything from Bermuda sodding, trees, and shrubs, to large directional boring and commercial trenching jobs. They can handle any size of landscaping job from local residential one off projects to large national government contracts.

"We are so proud to have been granted the government job," says a representative of 4-D Lawn & Landscaping. "We have been working in this field for over 25 years, and this was really an opportunity for us to showcase our skills."

The landscaping company is currently taking on a new government contract in Virginia. This contract is so large that no other company even entered a bid on it. Confident in the work that they do, 4-D Lawn & Landscape did not hesitate to accept the job. Since the start, the company has been documenting the work that they have done. They have shared this information on their Facebook page, where their gallery of pictures is growing steadily. The gallery can be accessed through <https://www.facebook.com/4DLAWNS/>.

As a subcontracting specialist, they are also very proud to be a WOSB (Women Owned Small Business). They do everything from design to installation for a range of different applications.

Those who have had work completed by the landscaping company in the past have been incredibly pleased with the results. "4D Lawn always adheres to a weekly schedule and they go above and beyond in that if something needs extra care or work, they do not hesitate to do the job," says Donna M.C. from the Bank of Oklahoma Mortgage on the company's website. "4D also maintains other property for me personally and I would highly recommend this company for any future projects for residential or commercial."

People are encouraged to check out the company's website on <http://www.4dlawns.com/>. Here, they will be able to find a wealth of information on the work that the company has done, as well as on progress for the

newly accepted government landscaping work.
