

Dr. Elena Christofides Joins Sparrow Pharmaceuticals as Strategic Advisor, Bringing Frontline Clinical Expertise to Innovative Therapeutic Development

August 14, 2026

COLUMBUS, OH - August 14, 2026 -

Endocrinology Associates is pleased to announce that Dr. Elena Christofides, a nationally recognized endocrinologist and metabolic disease expert, has joined Sparrow Pharmaceuticals as a strategic advisor, further expanding her leadership role in advancing innovative approaches to complex endocrine and metabolic disorders.

Sparrow Pharmaceuticals is a clinical-stage biopharmaceutical company focused on developing targeted therapies for cardiometabolic disease and disorders related to cortisol dysregulation. The company has built its reputation around challenging conventional thinking and pursuing novel scientific pathways to address unmet patient needs in diabetes, rare endocrine diseases, and related metabolic conditions. Sparrow's leadership team comprises experienced pharmaceutical innovators, entrepreneurs, and clinical researchers dedicated to advancing breakthrough therapies for patients who remain underserved by existing treatment options.

Dr. Christofides' advisory role will focus on helping Sparrow Pharmaceuticals evaluate clinical opportunities, identify potential development challenges, and refine strategies within the rare disease, diabetes, and cortisol-related therapeutic landscape. Her extensive experience caring for patients on a daily basis provides the company with a unique perspective that bridges scientific innovation and real-world clinical application.

"One of the greatest challenges in drug development is ensuring that promising science translates into meaningful outcomes for patients," said Dr. Elena Christofides. "As a practicing endocrinologist, I have the opportunity to see firsthand how patients navigate treatment decisions, barriers to care, and long-term disease management. I'm excited to contribute that perspective to Sparrow Pharmaceuticals as they continue pursuing innovative solutions for complex endocrine and metabolic conditions."

Unlike many pharmaceutical advisors who operate primarily within research or industry settings, Dr.

Christofides remains actively engaged in patient care. This ongoing clinical experience allows her to provide practical insights regarding treatment adoption, patient expectations, physician decision-making, and the real-world challenges that influence therapeutic success.

Through her work at Endocrinology Associates and her broader consulting activities, Dr. Christofides has established herself as a respected voice in endocrinology, obesity medicine, diabetes management, and metabolic health. Her ability to connect scientific advances with everyday clinical realities makes her a valuable contributor to organizations seeking to develop therapies that address both medical and patient-centered needs.

Sparrow Pharmaceuticals' leadership team has emphasized the importance of incorporating diverse perspectives into its strategic planning process. By adding Dr. Christofides to its advisory network, the company further strengthens its commitment to integrating frontline clinical expertise into the development of next-generation therapies targeting cortisol-driven metabolic dysfunction and related endocrine disorders.

Dr. Christofides' appointment is officially recognized on Sparrow Pharmaceuticals' leadership page, which highlights the company's management team and scientific advisors.

About Dr. Elena Christofides - Dr. Elena Christofides is a board-certified endocrinologist and a leading expert in diabetes, obesity, metabolic disease, and endocrine disorders. Through her work at Endocrinology Associates, she provides comprehensive patient-centered care while contributing to broader efforts aimed at advancing treatment innovation, clinical education, and improved outcomes for individuals living with complex metabolic conditions.

About Sparrow Pharmaceuticals - Sparrow Pharmaceuticals is a clinical-stage biopharmaceutical company focused on developing targeted therapies for cardiometabolic disease and disorders related to cortisol dysregulation. Sparrow is committed to pursuing novel scientific pathways to transform treatment options for patients suffering from rare endocrine diseases and metabolic conditions.
