

Ontario Company Launches Rental Water Heater Program

May 19, 2016

May 19, 2016 - PRESSADVANTAGE -

Consumers Comfort Inc. based in Vaughan, Ontario, Canada, has introduced a rental water heater service. This is designed to help consumers to avoid the expensive purchase of a water heater. Edgar Brown with Consumers Comfort says, "The program includes free installation of the water heater, as well as a full warranty and annual maintenance."

Brown states that for customer convenience, the monthly rental charge will appear on the customer's regular gas bill. The company points out that the water heater rental service will help consumers to save on the upfront cost of purchasing a new water heater, which can be relatively expensive in some cases.

Brown explains, "By renting, our customers save a few hundred dollars by not having to purchase their water heater outright. In addition, we provide the routine maintenance needed to keep the heater in good operating condition, and if any repairs are needed, we can handle those as well."

The company says that customers will benefit from the service simply because it provides an easier way to obtain a water heater. In addition, the annual maintenance and free installation will also help them to save

money. In case the homeowner sells the house this rental program transfers automatically to the new homeowner without any hassles. Most homeowners in Ontario rent their water heaters and find this service extremely affordable and easy. Brown states that the added monthly charge, which is minimal in most cases, is much more affordable for most consumers than the outright expense of purchasing a needed water heater.

Consumers Comfort Inc has been serving the Ontario region for more than 17 years with the goal of ensuring that their customers receive quality service at affordable prices. The company states that the new water heater program is just one more way that they offer to help area consumers to enjoy needed home amenities without spending a lot of money upfront.

The company offers an assortment of water heater brands and sizes, all of which can be viewed on their official website. Brown states that customers interested in learning more about the rental program can contact the company directly.
