

The Grounds Guys of Rapid City Expands Seasonal Service Offerings in South Dakota Community

August 10, 2026

RAPID CITY, SD - August 10, 2026 -

The Grounds Guys of Rapid City, a locally owned and operated landscaping and lawn care company, has broadened its range of seasonal services to address the year-round property maintenance needs of homeowners and businesses throughout the region. The expanded lineup reflects growing demand for comprehensive outdoor care that spans every season, from spring planting through winter snow removal.

The company now provides a full spectrum of Landscaping Services in Rapid City, including lawn and grounds maintenance, landscape design and installation, fertilization, weed and pest control, holiday lighting installation, snow and ice service, flower and garden bed maintenance, tree and shrub care, artificial turf installation, and power and pressure washing. The move consolidates a wide array of property care functions under a single provider, allowing property owners to maintain their landscapes across changing seasonal conditions.

The company noted that seasonal transitions in South Dakota present distinct challenges for property

owners. Spring and summer months call for regular mowing, edging, fertilization and irrigation management, while autumn brings seasonal clean-up work. Winter conditions in the area require snow clearing, plowing, ice melting and salting to keep residential and commercial properties safe and accessible.

"Property owners in this region deal with a demanding climate that shifts dramatically throughout the year," said Johnny Lazear, speaking for The Grounds Guys of Rapid City. "Consolidating maintenance, design, and seasonal services under one team gives homeowners and businesses a consistent point of contact for keeping their outdoor spaces healthy and functional in every season."

Among the services drawing attention is the company's Residential Landscaping in Rapid City program, which covers landscape design and installation, hardscape work, flower and garden bed maintenance, tree and shrub care, xeriscaping, irrigation, and lighting. These offerings are structured to support the long-term health and appearance of home landscapes while accommodating local soil, water, and climate conditions.

The company also emphasizes sustainable practices across its operations, including water-conscious irrigation methods and xeriscaping options suited to the semi-arid conditions common in western South Dakota. Lawn and grounds maintenance services extend to aeration, dethatching, seeding, sod installation, drainage installation and repair, and stump removal.

"Consistency and expertise matter when caring for a landscape over time," Lazear added. "The goal behind offering Professional Landscaping in Rapid City is to deliver reliable, knowledgeable service that property owners can depend on year after year, regardless of the season or the scope of the project."

The company serves both residential and commercial clients, offering commercial property maintenance that mirrors its residential programs, including grounds maintenance, landscape installation, holiday lighting, snow and ice management, and gutter cleaning.

The Grounds Guys of Rapid City is a locally owned and operated landscaping and lawn care company based in Rapid City, South Dakota. The company provides a comprehensive range of outdoor property services for residential and commercial clients, spanning landscape design, maintenance, fertilization, tree and shrub care, artificial turf, snow and ice removal, and power washing. The company is recognized for its focus on professionalism, expertise, sustainable practices, and customer satisfaction across the communities it serves.
