

Kustomz Truck & Auto in Rapid City South Dakota Expands Collision Repair Capabilities

August 10, 2026

Rapid City, SD - August 10, 2026 -

Kustomz Truck & Auto has announced an expansion of its collision repair capabilities, adding enhanced structural realignment and paint refinishing processes to serve drivers throughout the region. The auto body shop, located in Rapid City, South Dakota, provides Collision Repair in Rapid City South Dakota for a wide variety of vehicles, including cars, pickup trucks, SUVs, classic cars, personal watercraft, and recreational vehicles.

The expanded process follows a five-step approach that begins with a thorough damage inspection and continues through insurance coordination, structural and frame realignment, paint and surface restoration, and a final quality control check. This structured method is designed to return vehicles to their pre-accident condition while addressing both visible and underlying damage.

The shop offers Collision Repair Services in Rapid City that include complete frame and structural repairs, paint matching and refinishing, hail damage and dent removal, and insurance claim support. The team also

handles fleet and heavy-duty vehicle work, reflecting the range of vehicles common to the surrounding area and its seasonal weather conditions.

Steve Darling, general manager of Kustomz Truck & Auto, said the expanded capabilities respond to ongoing demand from local drivers who face hail damage and roadway collisions throughout the year.

"Vehicles in this region take on a variety of damage, from spring hailstorms to everyday collisions, and each situation calls for a different level of attention," Darling said. "The updated process allows technicians to address structural concerns and surface finishing with a consistent standard from start to finish."

The company noted several indicators that a vehicle may require attention, including misaligned body panels or doors, steering that pulls to one side, uneven tire wear, paint cracks or spiderwebbing, dashboard warning lights, and unusual noises or vibration. Drivers who notice these signs are encouraged to have their vehicles inspected, since certain forms of damage may not be visible without a professional evaluation.

Insurance coordination remains a central part of the service. The team works alongside insurers to document damage and support the claims process, an element the company considers important for reducing the administrative burden on customers following an accident.

Darling added that the shop's approach reflects its broader focus on craftsmanship. "Professional Collision Repair in Rapid City means more than fixing what is visible," he said. "It involves verifying that the frame, the finish, and the safety systems all meet the standard a driver expects before the vehicle returns to the road."

Beyond collision work, Kustomz Truck & Auto offers a range of automotive services, including paintless dent repair, classic car restoration, vehicle customization, fiberglass and gel coat repair, remote car starter installation, mobile audio and video installation, auto upholstery repair, and custom parts and accessories. The shop also provides six-door and excursion conversions for customers seeking additional seating capacity.

Kustomz Truck & Auto is an auto body and customization shop based in Rapid City, South Dakota. The business serves drivers across the region with collision repair, restoration, customization, and accessory services for cars, trucks, marine craft, and recreational vehicles.
