Valley Auto Care, an automobile service center in Apple Valley, MN, has announced that they now provide custom exhaust work. All exhaust repair and customization services are done by a 20 year exhaust veteran to guarantee the quality. They believe customization is important because many people identify with their vehicles, seeing them as an extension of their overall personal look and style. More details about the new service are available at www.valleyautocare.com, where people can also schedule their vehicle for customization and/or repairs.

Scott Brouwer from Valley Auto Care says: "We have been located in Apple Valley for over 25 years. And because we live in the community we serve, we are familiar with the needs of the people in the area. We have a range of ASE certified technicians with specialized training for repairing and maintaining German, American, Japanese, and other manufacturers. We are very proud of the work our individual staff members do, each of whom are extremely qualified."
