

One Call Plumbing Opens Its Doors To Offer Plumbers In Spartanburg, SC

May 25, 2016

May 25, 2016 - PRESSADVANTAGE -

One Call Plumbing Inc is a newly opened plumbing company in Spartanburg, SC. The company, which is fully licensed, bonded, and insured, offers 24/7 plumbing services to Spartanburg and Greenville residents and companies. Although the company has only recently opened its doors, its founders have over 20 years of experience in the field.

Preston Theye from One Call Plumbing Inc says: "We offer a full plumbing service to domestic and residential buildings in the Spartanburg and Greenville areas. We are fully licensed and have over two decades of experience in this work. Additionally, we offer emergency services and can be called out 24/7 for those who need us."

The company offers all elements of plumbing for both residential and commercial properties. Services include drain repairs and cleaning, garbage disposal servicing, faucets and sinks, sump pumps, and hot water heater repair and replacement. They pride themselves on being reliable, honest, and fair at all times. "We encourage people to read our reviews to see just what we are about," adds Preston Theye.

While having only recently opened its doors, the company is already receiving many positive reviews. "Called them, and they had it fixed right the first time unlike some of the other guys in the area," says Nishan H. on the company's website. "I like the fact that One Call Plumbing gave me the "big name company" service and warranty, but the care, respect and appreciation of the local plumbers, and from Amy who booked the call to Preston who serviced my business and got the drains working, my experience was great and would recommend them."

Although the company has only recently been launched, they have already registered with the Better Business Bureau and have built an excellent rating. "Check us out on BBB," adds Preston Theye. "We are committed to giving people a reliable service that they can trust, and it is so good to see that this is how we are perceived by our clients."

Those who have a plumbing emergency or are looking at having a plumber on board as and when they need it, are encouraged to contact One Call Plumbing as soon as possible.
