

AMARA Subway Unveils New Guide for Easier Group Meal Planning

August 13, 2026

August 13, 2026 -

AMARA Subway has published a new guide, "Subway Catering in Acworth, GA ? Box Lunches & Platters from \$6.50," for businesses, schools, community groups, and event organizers planning group meals in Acworth. Released May 5, 2026, the guide covers meal options, ordering timelines, pickup and delivery details, and other information that can help organizers plan group orders.

The new resource gives organizers clear information to review before placing a catering order. It covers individually packaged box lunches, shared party platters, and larger group orders, along with details about how AMARA Subway's two Acworth locations handle catering requests.

"Group meal planning is easier when organizers have clear information about portions, timing, and pickup or delivery before placing an order," said Alex Laldin, Marketing Director at AMARA Subway. "The new guide brings those details together so businesses and community groups can plan based on their headcount, schedule, and preferred meal format."

According to the guide, AMARA Subway operates two Acworth locations. One is at 1720 Mars Hill Road, and the other is at 6161 GA-92. The company states that it has served the Acworth community since 2018.

The guide explains two main catering formats available for group meals. Box lunches are individually packaged and include a sub, chips, and a cookie, with a minimum order of 10 boxes. Party platters contain five footlong sandwiches cut into 15 portions, with each platter serving approximately five to nine people.

Each format can meet different event needs. Individual box lunches provide separate meals for office meetings, school staff lunches, training sessions, and similar gatherings. Party platters provide shared portions for team gatherings, community events, and other occasions where attendees can serve themselves.

The resource also covers larger catering requests. AMARA Subway states that high-volume orders can be divided between its two Acworth kitchens when needed. The company also operates four additional locations in Cobb County, bringing the total number of locations listed on its website to six.

Advance planning is another key part of the new guide. AMARA Subway asks customers to provide at least 24 hours of notice for standard catering orders. For orders of more than 50 box lunches, the company recommends providing 48 hours of notice.

The guide also identifies the information organizers should have ready when arranging an order. This includes the number of people being served, the requested date and time, the preferred pickup or delivery method, and any dietary needs within the group. Providing these details helps the store prepare the order based on the event size and schedule.

Pickup is available from either Acworth location, according to the resource. Delivery is also available for qualifying catering orders. Organizers planning smaller orders can arrange pickup from either the Mars Hill Road or GA-92 store.

The guide describes several types of local groups that use catering services. These include offices and businesses around Mars Hill Road, construction crews working in north Acworth, schools and parent-teacher groups, churches, community organizations, youth leagues, and recreation programs. Staff meetings, training days, and other group events are also listed as common catering occasions.

By publishing the new guide, AMARA Subway has created a single reference for organizers who need information about meal formats, portions, ordering timelines, and pickup or delivery before planning a group meal. The resource focuses on the practical details that can affect catering decisions for events of different

sizes.

AMARA Subway operates six Subway locations across West and North Cobb County, including two locations serving Acworth. The company provides Subway menu items and catering options for group meals, including box lunches and party platters.
