

Ionox Water Infuser Bottle Now Available in More Colors

May 20, 2016

May 20, 2016 - PRESSADVANTAGE -

Health conscious consumers looking for a new way to stay adequately hydrated can now take advantage of the new offering from Ionox. Ionox water infuser bottles are now available in six colors: gray, blue, pink, turquoise, green and purple.

This update allows customers to personalize just one aspect of a holistic approach to health. Many people who have purchased the water infuser bottle on Amazon have reported drinking more water than they were previously. One customer who didn't like the taste of water was satisfied with the bottle's ability to provide fresh flavors in water for a natural sweet taste.

The water infuser bottles can also be customized by changing out the infuser stems. Customers can use the longer stem for more fresh fruit flavor, and a shorter stem for a subtler hint of fruit and vegetables. The bottle can also be used as a regular water bottle by removing the infuser stem.

The water infuser bottle can be refilled three to four times while maintaining a fruity flavor. The filtration system keeps pulp out of the drinking spout, and the water can be double filtered by filling the bottle directly

with fruit, and using the stem as an extra filter. The bottles are made from FDA food-grade Tritan, which are BPA free.

To find out more about this product and see all of the colors available, visit <http://www.amazon.com/water-infuser-bottle/dp/b00na13bos/>.
