Leven Rose, a natural beauty company based in Colorado Springs, CO, provides organic products that improve skin and hair health. Leven Rose has recently launched a new product, Broccoli Seed Oil, for a beautiful shine in hair and healthy, glowing skin. This oil benefits the face, skin, and hair. It has also been noted to fight acne and other breakouts. More information about the product can be seen at <http://www.amazon.com/TRUSTED-Leven-Rose-Broccoli-Seed/dp/B01E0939D6>.

Courtney Olson, of Leven Rose, states: "We are committed to providing people with the highest quality, all natural oils and products that can help them improve their overall health and beauty. Our latest product, all natural Broccoli Seed Oil, is great for nourishing skin and hydrating hair."

The broccoli seed oil, as with all Leven Rose products, contains just a single ingredient. There are no additives. It is natural, cold pressed, and unrefined. As a non-greasy type of oil, it has been observed to be very easy to be absorbed by the skin and hair. While it can be used with all skin types, it has been noted to be most effective with oily skin.

As can be seen on Leven Rose's website, <https://www.levenrose.com/products/broccoli-seed-oil-1-oz>, the oil contains high levels of omega 3 and essential fatty acids. These can help to give hair a natural shine and sheen, comparable to what silicone-based products are able to achieve. The Leven Rose oil can simply be added to a natural shampoo and conditioner in order to provide beautiful shine without the use of synthetic materials.

"Our oil will infuse hair with vitamin A and C for extra strength and protection," adds Courtney Olson. "Because it is 100% organic, it can also be used on the most sensitive skins, and the vitamins may then be able to help against inflammation and any skin problems. It can also act as a moisturizer that is expected to be good for the hair and skin."

Leven Rose encourages people to visit their Instagram page on <https://www.instagram.com/LevenRoseBeauty/> to see their products in action or to share photographs.
