Bay Shores Cleaning Company Joins Cleaning for a Reason to Support Cancer Patients

August 14, 2026

Midland, Michigan - August 14, 2026 -
Bay Shores Cleaning Company has joined Cleaning for a Reason, a nonprofit organization that provides free home cleaning services to cancer patients. Through the partnership, the company will offer complimentary cleaning to local individuals undergoing treatment, recovery, or related care.

The initiative aligns with the company's established focus on community support. Cleaning for a Reason connects residential cleaning providers with households affected by cancer so that patients can direct energy toward health and family rather than household tasks. Bay Shores Cleaning Company will contribute services as part of this network.

Wendy Nellet, owner of the company, described the decision in clear terms.

?Partnering with Cleaning for a Reason allows us to support individuals and families in our community during some of the hardest moments in their lives. We?re honored to be able to provide comfort, relief, and peace of mind through our services,? she stated.

The company already references the program among its community efforts. Participation enables free or reduced-cost cleanings for patients and certain elderly residents who face barriers to maintaining a clean home environment. The arrangement extends the business?s regular residential work into structured charitable support.

Bay Shores Cleaning Company operates residential cleaning, residential deep cleaning, and commercial cleaning services. Teams are trained and background-checked. The business also provides enrichment opportunities for staff, including classes on workplace appreciation and personal finance. Core values guiding operations include communication, optimism, safety, accountability, grace, making a difference, and family.

?At Bay Shores Cleaning Company, we believe serving our community means showing up for people when they need support the most. Through our partnership with Cleaning for a Reason, we?re grateful for the opportunity to ease a small part of the burden for local cancer patients and help create clean, comforting spaces for healing and recovery,? continued Nellet.

Cleaning for a Reason has operated since 2006 and works with more than 1,400 partner companies across the United States and Canada. The nonprofit coordinates applications from patients and matches them with local providers. Participating companies typically donate a set number of cleanings each month. Bay Shores Cleaning Company joins this model to serve eligible households in its service region.

The company was founded by Wendy Nellet, a Midland-area native who previously built operations under Harbor Shores Cleaning Company in northern Michigan. She returned to establish the current business and expand availability of professional cleaning. The organization emphasizes reliable scheduling, consistent teams when possible, and attention to detail across both homes and commercial spaces. Eco-friendly product options are available upon request.

Participation in Cleaning for a Reason fits within a broader mission that extends beyond paid work. The company views each cleaning assignment as a chance to support healthier living conditions. By formalizing the partnership, Bay Shores Cleaning Company creates a defined channel for assisting cancer patients who apply through the nonprofit.

Service areas include multiple nearby communities. The same operational standards applied to regular clients will apply to donated cleanings under the program. This consistency helps ensure that recipients receive thorough work without added administrative complexity.

The partnership does not alter the company?s primary business of residential and commercial cleaning. It adds a structured avenue for community contribution that matches existing capabilities. Staff continues to receive professional development while the business maintains its focus on dependable results.

Bay Shores Cleaning Company positions the collaboration as an extension of long-standing local roots and a practical response to needs that arise during serious illness. Clean living spaces can reduce one practical pressure for patients and their households. The arrangement allows the company to address that pressure through the skills already in use every day.

Over time, the partnership is expected to support a steady number of local cases referred by Cleaning for a Reason. Exact volumes will depend on applications and capacity. The company remains prepared to fulfill the donated services as part of its ongoing schedule.

Bay Shores Cleaning Company continues to build on experience dating to 2013 through its affiliated operations. The addition of the Cleaning for a Reason partnership marks a concrete step in applying that experience to community needs beyond standard commercial activity. The business will carry out the free cleanings under the same professional guidelines that govern all other work.
