

The Big Praise From the Patient to the St. George Dentist

May 20, 2016

May 20, 2016 - PRESSADVANTAGE -

St. George, UT -- Dixie Dental's Brandon Henderson, DDS receives a big thank you from Maria Serbina, local Business & Marketing Strategist, for a successful dental surgery.

Serbina has been the patient of Dr. Henderson's for only a few months but she underwent several different procedures including two extractions, two dental implants, and front veneers.

She came to St. George dentist Dr. Henderson at the referral from her insurance agent who has been the patient of Dixie Dental for two years.

Dr. Henderson started practicing in 2007. After few years, his practice started expanding, and he gained his popularity in cosmetic and restorative procedures among the 50 and older community.

Serbina said, "When I came to Dr. Henderson's office I was a little bit skeptical because I struggled to find the right dentist in St. George for me. I needed an extensive and expensive cosmetic and restorative work, such as implants, bridges, crowns and veneers. I wasn't satisfied with my previous dental work that cost me

more than 20 thousand dollars and lots of headache. But after the first consultation with Brandon, I felt at ease. I scheduled the appointment for the 2 teeth extractions and dental implants.?

Maria mentioned that she was really impressed with Dixie Dental's personnel. Cami Harris, Office Manager and Financial Coordinator, handled her financing, Loni Wagner, Patient Coordinator, was awesome with handling appointments and Kelly Mann, dental assistant, was very knowledgeable and professional.

Serbina is planning to continue her treatment plan with Dr. Henderson and refer new patients to him.
