

Bloomin' Blinds of Cumming & Johns Creek Named Best Window Treatment Company in Best of My Home Improvement Atlanta 2026

September 17, 2026

Cumming, Georgia - September 17, 2026 -

Bloomin' Blinds of Cumming & Johns Creek has been voted Best of My Home Improvement Atlanta 2026 in the Best Window Treatment Company category, an honor determined through public voting hosted by Atlanta Home Improvement magazine. The recognition places the family-owned business among the region's notable home service providers for the coming year.

The Best of My Home Improvement Atlanta awards program invites area residents to select professionals across a range of remodeling, design, and home service categories. Voting for the 2026 recognition took place through the magazine's annual online program, which spans categories from appliances and architecture to bathrooms, outdoor living, and window treatments.

Ashley Sasher, owner of Bloomin' Blinds of Cumming & Johns Creek, noted that the award reflects the community's role in the outcome.

"This recognition comes directly from the residents and homeowners who took the time to vote, and that

makes it especially meaningful for a family-owned business," Sasher said. "The award reflects the relationships built with local families throughout the region as they update the windows in their homes."

Bloomin' Blinds of Cumming & Johns Creek is a family-owned custom blinds, shades, shutters, and screens company serving Alpharetta, Cumming, Ball Ground, Dawsonville, and Johns Creek. The company specializes in window treatments tailored to fit windows of any size or shape, offering options for light control, privacy, room darkening, and temperature management across a broad selection of fabrics, colors, and patterns.

The company provides free in-home consultations through a mobile showroom that brings product samples directly to the customer's home, along with transparent pricing and free estimates. Additional services include professional measurement and installation, motorization and smart home integration that allows window coverings to operate on pre-programmed schedules, and on-site repairs for shades, shutters, and blinds.

Bloomin' Blinds also offers a window visualizer tool that allows homeowners to preview how a specific product will appear within their space before making a selection. The company places emphasis on child-safe window treatment options and provides financing for customers managing larger projects.

Sasher added that the range of services is designed to address the full lifespan of a window covering rather than the initial purchase alone. "Many homeowners are surprised to learn that a broken shade or shutter can often be repaired on-site rather than replaced," Sasher said. "Serving as a repair resource as well as an installation provider is part of what supports long-term relationships across these communities."

The 2026 designation continues Atlanta Home Improvement magazine's long-running practice of highlighting home service professionals selected by area readers. Categories recognize businesses across remodeling, design, outdoor projects, and home services throughout the greater Atlanta market.

Bloomin' Blinds of Cumming & Johns Creek operates as part of a network of window treatment specialists focused on custom solutions for residential properties. The company serves communities across the northern Atlanta metropolitan area, providing consultation, installation, and repair services for a variety of window covering needs. Residents interested in learning more can visit the website for additional details on available services and service areas.
