

Daniel Hall Releases Unique Podcasts On History Of Marketing

June 02, 2016

June 02, 2016 - PRESSADVANTAGE -

Daniel Hall Combined Enterprises has released a brand new, unique podcast on the history of marketing not just in this country, but also in various parts of the world. In the podcast, Attorney Daniel Hall interviews the most influential minds in marketing today. The Real Fast Results podcast is available for free on the iTunes store. This podcast delivers solid engaging and entertaining content as Daniel Hall joins the iTunes club of great podcasters such as Dan Carlin, as can be seen on http://www.huffingtonpost.com/entry/dan-carlin-hardcore-history_us_5643b5b5e4b08cda34875511.

Daniel Hall Combined Enterprises' Luanna Rodham says: "What Daniel has done through the Real Fast Results podcast is to create a source of information for people who want to quickly see results in their business. Each episode comes with hints and tips that people can take action on straightaway to see, as the name suggests, real fast results."

People are encouraged to sign up for the RSS feed for the Real Fast Results podcast. This can be done through <http://realfastresults.libsyn.com/rss>. The website also provides further information on what the show is all about. It demonstrates that there is a current focus on little known, highly effective business building tactics.

Daniel Hall also discusses passive and recurring income strategies. These strategies help to improve time efficiency and productivity, which are particularly important for busy entrepreneurs, including content creators. "While listening to Daniel's podcasts requires you to invest a bit of time, it is an investment worth making," adds Luanna Rodham. "I'm sure you will find the time enjoyable and very practical. If you, as an online entrepreneur or business, want to learn how to work smart, then this show is what you have been waiting for."

Podcasts are becoming increasingly popular methods of conveying information. In fact, the National Public Radio was saved thanks to these podcasts, as can be seen in a recent news article at <http://www.wired.com/2015/06/podcasts-saving-npr/>. Shifting to podcasts enabled the station to save significant costs and allowed it to make effective use of technological developments. Nevertheless, while they

now use modern technology, the radio has been able to retain its identity. For Daniel Hall, this is an inspiring example of the importance of a podcast such as Real Fast Results.
