

Florida Coastal Contractors LLC Reaches 100 Reviews on Google Business Profile

August 24, 2026

ST. AUGUSTINE, FL - August 24, 2026 -

Florida Coastal Contractors LLC, a state-certified building and pool contractor based in St. Augustine, has reached a milestone of 100 reviews on its Google Business Profile. The achievement reflects the volume of outdoor construction projects the company has completed for homeowners across St. Johns County.

The company operates as a local design-and-build firm focused on transforming backyards into functional outdoor living spaces. Its services include custom swimming pool construction, custom outdoor kitchen construction, pergola construction, paver patio installation, paver driveway installation, pavilion construction, and screen enclosure installation.

The collection of Florida Coastal Contractors LLC reviews spans the full range of the company's project types, from pool builds to screened enclosures. The 100-review mark represents feedback gathered over years of work in the St. Augustine area, where the firm handles both new installations and renovations.

"Reaching 100 reviews marks a meaningful point for the team," said Jessica Shafer, spokesperson for Florida Coastal Contractors LLC. "Each review reflects a completed project and a homeowner who trusted the company to build something that becomes part of daily life. The feedback also helps the design team understand what matters most to clients across the region."

The company reports that outdoor living projects have grown in popularity throughout St. Johns County as homeowners look to expand usable space beyond the walls of their homes. Swimming pools, outdoor kitchens, and covered structures such as pergolas and pavilions allow families to spend more time outdoors during Florida's extended warm season.

As the outdoor living area experts at Florida Coastal Contractors LLC continue to expand their portfolio, the company has emphasized its role as a single-source provider for exterior projects. Rather than coordinating

multiple trades, homeowners work with one contractor from initial consultation through final construction.

"The design-and-build approach keeps every stage of a project under one roof," Shafer added. "That structure allows the team to manage timelines, materials, and installation as a connected process, which is reflected in much of the feedback the company has received."

Paver installation remains a central part of the company's work. Paver patios and paver driveways provide durable surfaces that suit a range of property styles, while screen enclosures give homeowners protected outdoor rooms. Pergolas and pavilions add shade and structure to yards, decks, and paver surfaces.

The company serves St. Augustine and the surrounding communities of St. Johns County. As a state-certified building contractor and pool contractor, Florida Coastal Contractors LLC is licensed, bonded, and insured.

Florida Coastal Contractors LLC designs and builds outdoor living environments for residential properties in northeast Florida. The company specializes in custom swimming pools, outdoor kitchens, pergolas, pavilions, paver patios, paver driveways, and screen enclosures, working with each client from concept through completion. Based in St. Augustine, the firm is state-certified as both a building contractor and a pool contractor.
