

Body Sculpting And Skin Rejuvenation Clinic Launches New Website

July 07, 2016

July 07, 2016 - PRESSADVANTAGE -

Ashbrook Aesthetics, a business in Vancouver, WA, is proud to announce that they have a new website. The body sculpting and skin rejuvenation clinic has recently been voted best in Clark County for the services that they provide. They have now decided to launch a new website, enabling them to better promote their services to the wider public. The new site can be accessed at <http://ashbrookbeauty.com/>.

Shawna Quade from Ashbrook Aesthetics says: "We are so proud to have been voted best in Clark County for Aesthetic Medicine. As soon as we were awarded this, however, there was an influx of people looking for us online, and our website simply wasn't up to scratch. We got to work on redesigning it in full and are proud to say that it is now completely live for people to check out."

The company would also like to inform the public that their Facebook page can be found at <https://www.facebook.com/ashbrook.aesthetics/>, which has already attracted over 500 likes. The said social media page is used to highlight the services that Ashbrook Aesthetics offers, while at the same time encouraging conversation and enabling patients to review the services that they have received.

Many of those who have gone to the Facebook page have left reviews to describe how happy they are with the services they have received. "I started out being a client at Ashbrook Aesthetics and it quickly became clear to me that they were more than just an average medical spa. I felt welcomed, cared for and loved with every visit," says Kandida K.S. "I am now a happy part of their aesthetic team and enjoy showing that same welcoming care and love for my clients that was shown to me."

The new website clearly highlights the different services that they offer. These includes painless hair removal, Botox, Juvéderm & Voluma, body sculpting, skin rejuvenation, aesthetics for men, and physician-dispensed skin care. The clinic prides itself in offering personalized care to each of their patients, making them feel at home. This is something that has really set them apart from clinics offering the same services.
