

Miller Tree Service Expands Local Tree Removal Availability Across Northwest Louisiana

September 17, 2026

Shreveport, Louisiana - September 17, 2026 -
Miller Tree Service, Inc. has reinforced its commitment to safe and efficient tree removal throughout Northwest Louisiana, extending round-the-clock availability to homeowners and property managers in Shreveport, Bossier City, Benton, Haughton, and Stonewall. The family-owned company, which has served the region for more than 40 years, continues to respond to a steady rise in demand for professional tree care following recent seasons of severe weather.

As storm activity and aging tree populations increase the risk of property damage in the area, Miller Tree Service has emphasized the importance of relying on certified arborists for safe tree removal. The company maintains four arborists on staff and deploys trained crews equipped to remove trees of any size or location, including storm-damaged, dead, or hazardous specimens near structures and power lines.

Hazardous trees present ongoing concerns for residents across the region, particularly during hurricane and thunderstorm seasons. Dead or weakened trees can fall without warning, threatening homes, vehicles, and

personal safety. By providing local tree removal supported by proper equipment and experienced personnel, the company aims to help property owners address these risks before they escalate into emergencies.

"Every tree removal situation is different, and the safety of the property and the people around it always comes first," said Matt Miller of Miller Tree Service. "With four arborists on staff and decades of combined experience, the team is equipped to assess each tree carefully and remove it in the safest possible manner."

Beyond removal, the company completes each project with thorough cleanup, leaving yards free of debris and offering stump removal to restore a clean landscape appearance. This attention to detail has contributed to the company's longstanding reputation across communities in Bossier and Caddo parishes and the surrounding areas.

"Trees are an important part of Northwest Louisiana neighborhoods, and the goal is always to protect both the landscape and the property," Miller added. "Residents who have concerns about a tree on their property are encouraged to have it evaluated by a professional. For those in Shreveport, Bossier City, Benton, Haughton, or Stonewall, please call or send us a message today."

Miller Tree Service operates emergency service around the clock, allowing crews to respond quickly when storms bring down limbs or entire trees. This availability has become increasingly relevant as weather patterns place added strain on the region's tree canopy.

Miller Tree Service, Inc. is a family-owned and operated business that has served Northwest Louisiana for over 40 years. The company offers tree removal, stump removal, tree pruning, storm damage cleanup, and tree arborist consulting throughout Benton, Bossier City, Haughton, Minden, Mansfield, Stonewall, Shreveport, and surrounding areas. Fully licensed and insured, the company maintains four arborists on staff, holds an A+ rating with the Better Business Bureau, and brings more than 100 years of combined industry experience to its work. The company can be reached by phone at 318-747-1568.
