

Better Builders Highlights Five-Star Client Reputation Across Kitchen and Home Remodeling Projects in Seattle

September 01, 2026

SEATTLE, WA - September 01, 2026 -

Better Builders, a home construction and renovation contractor serving the Seattle metro area, is drawing attention to the consistent five-star client feedback it has earned for its remodeling work. The recognition reflects more than 35 years of experience and a client-centered process that spans custom home building, whole-house transformations, and specialized room renovations.

Among the recent reviews shaping that reputation is a five-star account from client Brian Morrison, who described a renovation defined by clear communication, cleanliness, and attentive care. Morrison noted that he was able to remain in his home with his large dogs throughout the entire renovation process, and he recommended the company for major home projects.

The company attributes the recurring positive feedback to a structured, transparent approach that keeps homeowners informed at every stage. As a remodeling contractor in Seattle, Better Builders manages both

the design and construction phases under one roof, a model intended to reduce miscommunication and keep projects aligned with client expectations from concept through completion.

"A five-star rating reflects the experience a homeowner has from the first design conversation to the final walkthrough," said Pete Baughman of Better Builders. "The goal is a clear, well-managed process and a result that feels truly worth the investment. When clients can live comfortably in their space during a project and still trust the outcome, that trust is the standard the team works to meet."

Better Builders offers a broad range of services designed to address the needs of homeowners at different stages of their property goals. Better Builders home remodeling work includes kitchen remodels, bathroom remodels, basement remodeling, home additions, and outdoor living spaces. The company also builds accessory dwelling units and detached accessory dwelling units, providing flexible housing options on single-family lots throughout the region.

Kitchen projects remain among the most requested services, with the company handling updates that range from modest refreshes to full renovations focused on functionality and layout. Bathroom remodels, exterior improvements, and sunroom construction round out a service list built to support both incremental upgrades and comprehensive home transformations.

Baughman emphasized that the company's warranty commitment plays a role in the feedback it receives. "Standing behind the work with a multi-year craftsmanship warranty gives homeowners confidence that the relationship does not end when construction does," he said.

The company backs its projects with a five-year craftsmanship warranty that extends beyond common industry standards, reflecting an emphasis on quality, integrity, and lasting value. That commitment, paired with ongoing client feedback, continues to inform how the team approaches each new project across the Seattle area.

Better Builders is a home construction and renovation contractor based in the Seattle metro area with more than 35 years of remodeling experience. The company provides design-build services that include custom home building, whole-house remodels, kitchen and bathroom renovations, home additions, basement remodeling, accessory dwelling units, outdoor living spaces, and exteriors. Better Builders operates under a five-year craftsmanship warranty and a client-focused process centered on quality and lasting value.
