

Champion Pro Deck Marks Milestone of More Than 2,000 Five-Star Reviews for Deck Construction Services

September 01, 2026

KNOXVILLE, TN - September 01, 2026 -

Champion Pro Deck in Knoxville, Tennessee, has surpassed 2,000 five-star customer reviews and maintains a 4.8 rating on Google, reflecting sustained demand for its composite decking and related services throughout the region.

The milestone underscores the company's established position as a professional deck builder in Knoxville, offering custom deck construction, repairs, staining, and consultation services. The company specializes in composite decking engineered to resist fading, staining, scratching, moisture infiltration, and insect activity, partnering with leading manufacturers to provide a broad selection of colors, textures, and finishes.

The volume of positive feedback highlights a growing homeowner preference for durable, low-maintenance outdoor living spaces. Composite materials have gained traction in the residential market as property owners seek alternatives to traditional wood that require less upkeep over time while retaining structural integrity through seasonal weather changes.

"Reaching more than 2,000 five-star reviews reflects years of consistent work and attention to detail on every project," said a spokesperson for Champion Pro Deck. "Each review represents a completed deck that a family can rely on for years, and that record speaks to the standards the team applies to material selection, craftsmanship, and follow-through."

Beyond new deck construction, the company provides repair services that address loose boards, damaged sections, and structural reinforcement to keep existing decks safe and functional. Its staining services add a protective layer against the elements while enhancing appearance, an approach that supports long-term deck maintenance and extends the usable life of the structure.

One of the company's recent reviews can be viewed at knoxvilledeck.com, where prior clients have documented their experiences with completed projects. The company's team of licensed and insured professionals brings years of combined experience to residential deck work across the Knoxville area.

"Deck maintenance is often overlooked until a problem develops, and part of the consultation process involves helping homeowners understand how material choices affect long-term care," the spokesperson added. "Composite decking reduces much of that ongoing burden, which is one reason the demand for it continues to climb."

Champion Pro Deck emphasizes discipline, reliability, and excellence across its project work, prioritizing customer satisfaction through personalized solutions and support from initial consultation to final completion. The company offers expert guidance on design, material selection, and maintenance considerations tailored to each property.

Champion Pro Deck is a veteran-owned company located in Knoxville, Tennessee, specializing in comprehensive deck solutions including deck construction, repairs, staining, and consultation services. Using premium materials and a team of licensed and insured professionals, the company delivers custom-built decks tailored to client specifications. Champion Pro Deck has earned a 4.8 rating on Google alongside more than 2,000 five-star reviews from clients throughout the region.
