

Cleaning's A Breeze Cites Leading Google Review Rating Among Local Cleaning Providers

September 02, 2026

Wasilla, Alaska - September 02, 2026 -

Cleaning's A Breeze reports that its Google Business Profile holds the highest public star rating among cleaning businesses listed for the Wasilla market. The company describes that standing as its own comparison of publicly visible Google ratings, not an official award issued by Google and not a judged contest.

The comparison is based on the star rating and review count shown on the company's Google Business Profile and compiled on the company's reviews page. As displayed on that page, the listing shows a 4.7 rating from 87 reviews, with individual Google comments dated through April 30, 2026. The company has not published a weighted formula or a named list of competing businesses used in the comparison. Third-party review aggregators display different totals, so the 4.7 rating from 87 reviews should be verified against the live Google profile and the company reviews page.

BrightLocal's Local Consumer Review Survey 2026, based on 1,002 U.S. adults surveyed in February 2026, found that 97 percent of consumers read reviews for local businesses and that 71 percent use Google to read those reviews. The same survey found that 41 percent of consumers always read reviews when browsing for

a business and that 31 percent will use only a business rated 4.5 stars or higher.

"Being recognized as the top-rated cleaning business on Google is incredibly meaningful because it comes directly from our clients' experiences. We've worked hard to create a company people can rely on, and this recognition belongs just as much to our amazing team as it does to our customers," said Bre Tschilar, CEO, Cleaning's A Breeze.

Alaska company records list Cleaning's A Breeze LLC as formed on July 5, 2016. Company materials state that Tschilar founded the business after 16 years of work in the special needs community and that the company remains locally owned and operated. Core values listed by the company are work hard, help others, show compassion, and spread joy.

Operational claims are published in company materials. The about page states that 100 percent of staff members are background-checked before entering any home. The homepage states that each team member is licensed, insured, and bonded. The about page states that the company is certified as Professional Cleaners through the American House Cleaners Association and is COVID certified through the same association.

Technicians and office staff complete training on pH levels, product acidity, and surface-specific methods, according to the about page. The homepage and about page both state that the company uses plant-based cleaning products. The about page states that the company will return to address concerns if notified within 24 hours.

Service categories listed on the company website are recurring cleaning on weekly, bi-weekly, or monthly schedules; deep cleaning; move-in and move-out cleaning; and short-term rental cleaning. Communities named on the homepage include Anchorage, Eagle River, Chugiak, Palmer, Wasilla, Big Lake, Houston, and surrounding areas.

Community programs are also described in company materials. The about page states that free cleanings for cancer patients have been provided since 2019 through a partnership with Cleaning For A Reason, a 501(c)(3) nonprofit that offers complimentary home cleaning to patients in the United States and Canada.

Cleaning For A Reason states that partner companies must be insured and perform background checks. The about page also states that the company donates 16 hours each month to local residents nominated through Cleaning From the Heart. Nominations may include veterans, first responders, working single parents, or other community members and are handled anonymously.

Cleaning's A Breeze is a family-owned residential cleaning company. It provides the residential services listed

above and publishes the screening, certification, training, product, and community-program statements cited from its website.
