

Nichole's Cleaning Service Marks 11 Years as a Woman-Owned Company

September 02, 2026

Windermere, Florida - September 02, 2026 -

Nichole's Cleaning Service, founded in 2015 by Nichole Devescovi, is operating in its 11th year and entering a second decade as a woman-owned, founder-led provider of recurring residential cleaning services. The company began as a local startup and now serves households in Winter Garden, Horizon West, Windermere, Ocoee, Oakland, Clermont, and surrounding West Orange County communities.

The timing is straightforward. Devescovi opened the business in 2015. The company marked 11 years of operation in June 2026 and continues that run into September. Growth has been described in terms the company can document rather than in unpublished sales totals: a wider West Orange County service area, a shift from a one-person startup to a team that employs local cleaning professionals, a client base built mainly through referrals and repeat customers, and a public reputation supported by hundreds of online reviews.

Woman-owned firms remain a substantial part of the national business landscape. According to U.S. Census Bureau figures released in November 2025 and covering 2023, women owned 14.2 million U.S. businesses. Separate Census Annual Business Survey data show women-owned employer firms rising from 20.0 percent of employer businesses in 2017 to 22.9 percent in 2023, a 19.6 percent increase in the number of those firms

compared with 4.5 percent growth among men-owned employer firms over the same period. Nichole's Cleaning Service sits inside that longer trend as a locally owned residential service company that has stayed under founder leadership for more than a decade.

Community ties have been named in prior company announcements. Nichole's Cleaning Service was recognized in 2026 as a Horizon West Magazine Community Honoree. The company has also supported A Heart To Give, an Ocoee-based nonprofit that assists families in Central Florida, for four years. Those points illustrate the community involvement and local networking referenced in the company's public materials, rather than an unnamed list of groups.

"As a woman-owned business, I've always tried to lead with compassion, consistency, and accountability. Building this company hasn't always been easy, but being able to create opportunities for other women and families along the way has made it incredibly meaningful," said Nichole Devescovi, Owner of Nichole's Cleaning Service.

Devescovi's stated leadership priorities are service, accountability, and team development. The practical result, as described by the company, has been employment for area residents and a culture that treats work inside a home as personal. The firm's clients include busy families, professionals, and dual-income households that schedule recurring house cleaning rather than one-time visits. That recurring model is the operational core of the business and the basis for the long-term customer relationships it cites.

The second-decade mark is a record of continuity, not a new product launch. Many locally owned home-service companies do not reach 11 years. Nichole's Cleaning Service attributes its duration to repeat work, referral growth across a defined service area, and a founder who has remained involved in daily standards. Community recognition and the multi-year A Heart To Give partnership are presented as extensions of that same relationship-based approach.

As the company continues through 2026, its public story remains tied to the 2015 founding, the 11-year milestone observed in June, woman-owned ownership, team employment in West Orange County, and a limited set of named community connections. Those facts, rather than unsourced performance claims, are what the company is putting on the record this month.

Nichole's Cleaning Service is a woman-owned business founded in 2015 that specializes in recurring residential cleaning services. The company serves families and professionals throughout West Orange County with a focus on dependable home care, team development, and long-term community relationships.
