

Dixie Glass Gulf Coast Highlights Residential Glass Service Upgrades for Coastal Homes

September 08, 2026

PASCAGOULA, MS - September 08, 2026 -

Dixie Glass Gulf Coast, a family-owned glass company serving the Mississippi Gulf Coast since 1946, is drawing attention to a growing demand for residential glass improvements among homeowners in Pascagoula and surrounding communities. As many area residents pursue bathroom remodels and energy-efficiency projects, the company is focusing on the design and installation work that supports these home upgrades.

The Dixie Glass Gulf Coast residential glass service centers on frameless shower enclosures, custom-cut mirrors, and the replacement of fogged or broken residential window glass. According to the company, homeowners along the coast increasingly seek these updates when renovating older homes or addressing window damage caused by the region's humid, storm-prone climate. Fogged window panes, in particular, often signal a failed seal that can reduce a home's energy efficiency over time.

The company's residential offerings extend from bathroom and window work to decorative glass elements

such as elegant mirrors and custom glass tabletops. Dixie Glass fabricates much of this glass in-house, which allows for custom cutting and quality control on projects that must fit specific dimensions within a home.

Sean Westmoreland, a company representative for Dixie Glass Gulf Coast, said the timing reflects the seasonal patterns of home improvement on the coast. "Many families begin planning remodeling projects during this part of the year, and glass is often one of the final details that ties a space together," Westmoreland said. "A frameless shower enclosure or a properly sealed window can make a meaningful difference in how a home looks and performs."

Westmoreland added that fogged glass is a frequent concern among local homeowners. "Condensation trapped between window panes is a common issue in this climate, and it usually means the seal has failed," he said. "Replacing the glass restores clarity and helps the window do its job again. It is one of the more overlooked home maintenance items along the Gulf Coast."

The residential work represents one segment of Dixie Glass's broader operations, which also include auto glass replacement and repair, commercial storefront and curtain wall systems, and retail and custom glass fabrication. The company serves communities from Gulfport and Biloxi to Pascagoula and beyond, operating from its location on Market Street in Pascagoula.

Dixie Glass Gulf Coast - Pascagoula is a licensed and insured Mississippi State Board Certified Contractor, and its staff includes Auto Glass Safety Council Certified Technicians. The company has received several forms of recognition in recent years, including placement on the Inc. 5000 list of fastest-growing small businesses in 2020 and 2023, recognition as the Glazier Nation Glass Company of the Year for 2024, and the 2025 WXXV Viewers Choice Award.

Founded in 1946, Dixie Glass has spent more than seven decades providing glass services to residents and businesses across the Mississippi Gulf Coast. The company's range spans automotive, residential, commercial, retail, and decorative glass work, supported by in-house fabrication capabilities. Dixie Glass continues to operate as a family-owned business with a focus on quality, safety, and professionalism across the communities it serves.
