

Dixie Glass Lucedale Expands Commercial Glass Service for Gulf Coast Businesses

September 08, 2026

LUCEDALE, MS - September 08, 2026 -

Dixie Glass Lucedale is directing renewed attention toward the commercial sector, offering modern glass solutions designed to help area businesses maintain secure, attractive, and functional storefronts. The family-owned company, which has served the Mississippi Gulf Coast for three generations, is emphasizing its work with storefront windows and doors, curtain wall systems, and commercial door repair as demand for professional glazing continues across the region.

The focus reflects a broader effort by the company to support the commercial community from its Lucedale location at 58 E Frontage Rd. Businesses along the Gulf Coast rely on durable, well-installed glass to protect inventory, welcome customers, and meet safety standards. The Dixie Glass Lucedale commercial glass service addresses these needs through storefront installation and repair, large bid and contract work, and ongoing maintenance for commercial properties.

Dixie Glass has operated since 1946, building a reputation across auto, residential, commercial, and custom

glass fabrication. The company's commercial division handles projects ranging from single-door repairs to large curtain wall systems, working with property owners and contractors throughout the area. This attention to the commercial market comes as more businesses seek local providers capable of handling both routine repairs and larger construction-related glass work.

"Local businesses are the backbone of the Gulf Coast, and they deserve glass work that holds up and looks right," said Sean Westmoreland of Dixie Glass. "The commercial side of the business has grown steadily, and the aim is to give owners a dependable local option for everything from a cracked storefront to a full curtain wall installation."

The company's team includes Auto Glass Safety Council Certified Technicians, and Dixie Glass holds certification as a Mississippi State Board Certified Contractor. That credentialing extends to commercial projects, where code compliance and proper installation carry particular importance for occupied buildings and public-facing storefronts.

Dixie Glass has drawn recognition in recent years for its overall operations. The company was named to the Inc. 5000 list of Fastest Growing Small Businesses in 2020 and 2023, and it was honored as the Glazier Nation Glass Company of the Year for 2024. It also received the 2025 WXXV Viewers Choice Award.

"Commercial glass work is about more than appearance," Westmoreland added. "It affects security, energy use, and the impression a business makes on every person who walks up to the door. The goal is to bring that level of care to each project, large or small."

Beyond commercial work, Dixie Glass provides auto glass replacement and repair with in-house Advanced Driver Assistance Systems recalibration, residential services including frameless shower enclosures and custom mirrors, and walk-in custom glass fabrication for tabletops, shelves, and plexiglass projects.

Dixie Glass is a family-owned glass services provider operating on the Mississippi Gulf Coast, with a legacy spanning three generations since 1946. The company offers auto glass services, residential glass services, commercial glass services, retail and custom glass fabrication, and decorative glass. Its Lucedale location serves George County and the surrounding communities.
