

NextDAY Cabinets Highlights Chicago Kitchen Cabinets Resource at Elk Grove Village Showroom

September 08, 2026

CHANTILLY, VA - September 08, 2026 -

NextDAY Cabinets has expanded its focus on serving the greater Chicago market through its showroom in Elk Grove Village, Illinois, reinforcing its role as a trade-focused resource for contractors, builders, remodelers, cabinet dealers, designers, and other construction professionals across the region.

Located at 1801 Estes Ave in Elk Grove Village, the NextDAY Cabinets Chicago showroom provides area trade professionals with local access to a range of cabinetry, bathroom vanities, and related products. The location features product displays that allow contractors and designers to review finishes, door styles, and construction details in person before specifying products for their projects.

"The Elk Grove Village showroom was established to give Chicago-area trade professionals a dependable local source for cabinets and related products," said a representative from NextDAY Cabinets. "Contractors and designers benefit from being able to see products firsthand, coordinate delivery or pickup, and work with staff who understand the demands of the construction and remodeling trades."

The showroom supports professionals sourcing wholesale kitchen cabinets in Chicago, offering multiple cabinet brands, professional design support, and both pickup and delivery options. Product lines available through the company include cabinetry from Shiloh Cabinetry, Kith Kitchens, Waypoint Cabinets, Marsh Furniture, Forevermark Cabinets, Golden Home, Wolf Home Products, Mantra Cabinets, and Lineadecor.

Beyond kitchen cabinets, the cabinet store carries bathroom vanities, closet solutions, flooring options, and kitchen accessories, giving trade customers a single point of access for materials across multiple project categories. A custom paint program is also available for professionals seeking specific finishes for their clients.

The company positions itself as a distributor serving construction and design professionals rather than as a direct-to-homeowner remodeling contractor. That trade orientation shapes the way the showroom operates, with an emphasis on efficient fulfillment, contractor-focused purchasing options, and support for professionals managing multiple jobs at once.

The Chicago showroom is part of a broader network of NextDAY Cabinets locations across Virginia, Maryland, and the greater Chicago market. Additional showrooms operate in Chantilly, Alexandria, Woodbridge, and Richmond, Virginia, as well as Beltsville, Maryland. The multi-location presence allows the company to serve trade customers in several regional markets while maintaining a local point of contact in each area.

"Local access matters in this industry, particularly when timelines are tight and project details need to be confirmed quickly," the representative added. "The Elk Grove Village location reflects a continued commitment to serving the Chicago-area building and design community."

NextDAY Cabinets is a distributor of wood kitchen cabinets and vanities serving contractors, builders, remodelers, cabinet dealers, and designers. The company offers a range of cabinet brands, bathroom products, closet solutions, flooring, and kitchen accessories, along with design support, a custom paint program, and pickup and delivery options. NextDAY Cabinets operates showrooms in Virginia, Maryland, and the greater Chicago market, including its Elk Grove Village location serving the Chicago region.
