OVERTAXED: Six Powerful Tax-Free Investment Strategies and How to Use Them to Lower Taxes, a book written by Ali Hashemian on tax-free investment strategies, was #1 on Amazon for multiple weeks. Hashemian, of KineticFinancial.com, wrote the book in order to provide valuable tax advice to those who are concerned about a future of higher taxes and the effect it will have on their investment and retirement portfolios. OVERTAXED is now available in paperback.

In this book, Hashemian points out the unavoidable nature of taxes, but, more importantly, he pinpoints methods on how to avoid paying exorbitant taxes without breaking any laws. There is a big difference between tax evasion and tax avoidance. OVERTAXED shows readers how tax avoidance works and is a legal opportunity for investors to save more money for retirement, rather than spending it on taxes.

OVERTAXED: Six Powerful Tax-Free Investment Strategies and How to Use Them to Lower Taxes, identifies six specific tax-free investment strategies which can be effectively used by investors in the United States. Hashemian made it clear to readers that these tax avoidance strategies are visibly found in IRS codes, and it is our right as citizens and investors to take advantage of these tax-free opportunities.

To date, the book has received great praise by those who have used the methods to diversify taxes for

retirement and investment portfolios. One individual responded to the book by saying: "This is truly a fantastic resource for those who want to lower their taxes. The book is easy to read and extremely informative." - B. M. Fatemi

The book is described as being easy to understand, without having the hard-to-read industry jargon that is often incorporated into financial planning dialogue. Hashemian has suggested that the book was organized with purpose to offer readers of all backgrounds the ability to read it and absorb the strategies without being overly complex or complicated.

"Very in-depth yet easy to understand guide to navigating the tax world of investing." Alec Nadelle

Hashemian has a long background in the financial advising world, having worked as a financial consultant for families and corporations for nearly twenty years. His high-level experience at one of the largest financial institutions in the world served as a jumping block from which he has built KineticFinancial.com and gained a reputation as an authority in the field of financial planning.
