

Kustomz Truck & Auto in Rapid City, South Dakota Expands Collision Repair Services for Local Drivers

September 21, 2026

Rapid City, SD - September 21, 2026 -

Kustomz Truck & Auto, an established auto body shop serving the Black Hills region, has expanded its collision repair capabilities to address the growing demand for structural and cosmetic vehicle restoration among area drivers. The shop now provides comprehensive services covering everything from minor dents to major structural damage, with dedicated support for insurance claims and heavy-duty fleet vehicles.

The expansion comes as seasonal weather conditions in South Dakota continue to contribute to hail damage and collision incidents on regional roadways. Collision Repair in Rapid City has become an increasingly important service for residents who rely on their vehicles throughout the harsh winter and storm-prone spring months.

Kustomz Truck & Auto works with a wide range of vehicles, including cars, pickup trucks, SUVs, classic cars, personal watercraft, RVs, and campers. The company's collision services include complete frame and structural repairs, paint matching and refinishing, hail damage and dent removal, insurance claim support,

and repair work for fleet and heavy-duty vehicles.

"Drivers throughout the region need reliable options when their vehicles are damaged, and the goal has always been to restore each vehicle to its pre-accident condition," said Steve Darling of Kustomz Truck & Auto. "The team follows a careful process that begins with a thorough damage inspection and moves through insurance coordination, structural realignment, and surface restoration before a final quality check."

The shop encourages vehicle owners to watch for common indicators that repair may be needed, such as misaligned body panels or doors, steering that pulls to one side, uneven tire wear, paint cracks or spiderwebbing, dashboard warning lights, and unusual noises or vibrations. These signs often point to underlying structural issues that require professional attention.

Auto Collision Repair Rapid City services at the facility follow a five-step process designed to maintain consistency and accuracy. Technicians conduct a detailed inspection, coordinate with insurance providers, complete structural and frame realignment, restore paint and surfaces, and perform a final quality control review before returning each vehicle to its owner.

"Insurance coordination is one of the areas where customers value guidance the most," Darling said. "Providing Professional Collision Repair Rapid City residents can depend on means handling the details so people can get back on the road with confidence."

Beyond collision work, Kustomz Truck & Auto offers a broad range of automotive services, including paintless dent repair, classic car restoration, vehicle customization, remote car starter installation, fiberglass and gel coat repair, six-door and excursion conversions, mobile audio and video installation, auto upholstery, and custom parts and accessories.

Kustomz Truck & Auto is a full-service automotive shop located in Rapid City, South Dakota. The company specializes in collision repair, restoration, customization, and marine fiberglass work, serving drivers and vehicle owners across the Black Hills region. With experienced technicians and a focus on quality craftsmanship, the shop handles projects ranging from routine dent removal to complex structural restoration for a variety of vehicle types.
