

Tuck & Howell Plumbing, Heating & Air Named Exclusive HVAC Partner of the Hub City Spartanburgers

October 19, 2026

GREER, SC - October 19, 2026 -

Tuck & Howell Plumbing, Heating & Air has entered a three-year agreement to become the exclusive HVAC partner of the Hub City Spartanburgers, the professional baseball team based in Spartanburg, South Carolina. The partnership begins this season and places the family owned Upstate company inside the ballpark throughout each home schedule.

The partnership between Tuck & Howell and the Spartanburgers reflects a shared connection to the Spartanburg community and the wider Upstate region. Family owned and operated since 1969, the company serves Spartanburg along with Duncan, Greenville, Simpsonville, and Greer. The agreement expands the company's presence in the Spartanburg market while supporting a hometown team that has become a gathering place for local families.

Throughout the season, fans will see Tuck & Howell represented across the ballpark. The company will host a booth where attendees can stop by for giveaways and conversation with the local team behind the

brand. The setup is meant to give neighbors a chance to meet the people who work in their homes rather than simply see a logo on a wall.

"Our Family Serving Yours Since 1969 is more than a line for us, it is how the work actually gets done," said Jay Mahaffey, owner of Tuck & Howell Plumbing, Heating & Air. "Being part of the Spartanburgers season lets neighbors put faces to the name. Families come out to the ballpark, and those are the same families we help with heating, cooling, and plumbing every day."

The company approaches service with a philosophy it describes as giving homeowners options, not ultimatums. That means walking customers through the choices available for their homes and letting them decide what fits, an approach the company traces back to its roots as a local, family run operation.

"When a household calls us, they get people from the Upstate who plan to be here for the long haul," Mahaffey said. "A ballpark is a good place to remind folks that the company handling their comfort lives and works right alongside them in Spartanburg and across the region."

Tuck & Howell Plumbing, Heating & Air has served the Upstate since 1969, providing air conditioning installation, maintenance, and repair, along with a full range of Heating & Air services that include heat pumps and geothermal systems. The company's plumbing work covers water heaters, drains, sewers, backflow plumbing, and water treatment. Additional offerings include ductwork, duct-free systems, crawlspace encapsulation, indoor air quality, and attic insulation.

The company holds an A+ rating from the Better Business Bureau and a 4.9 rating on Google, reflecting decades of work across Spartanburg, Greenville, Simpsonville, Greer, Duncan, and surrounding communities. Tuck & Howell also provides around-the-clock emergency service and flexible financing options for homeowners.

The partnership with the Hub City Spartanburgers and Fifth Third Park gives the company a season-long presence in the community it has served for more than five decades. For a family owned business that has grown alongside the Upstate, the partnership marks another chapter of local roots meeting local baseball.
