

Bridal Lingerie in Richmond: Priscilla McCall's Discusses Guidance on Honeymoons and Wedding Nights

September 22, 2026

HENRICO, VA - September 22, 2026 -

Once the ceremony and reception are over, wedding planning can shift toward the wedding night, honeymoon, and the clothing selected for those occasions. Bridal lingerie in Richmond can include a wide range of styles intended for different purposes, from pieces worn beneath a wedding gown to lingerie selected specifically for travel or the wedding night. Priscilla McCall's outlines several factors that can be considered when comparing these options, including fit, fabric, construction, sizing, and intended use.

One distinction involves separating wedding-day lingerie from pieces intended for the wedding night or honeymoon. Garments worn beneath a wedding dress may need to account for the gown's shape, fabric, and construction. Lingerie intended for later in the celebration can be considered separately, with greater emphasis placed on style, coverage, fabric, and personal preference.

Chemises, teddies, two-piece sets, bodystockings, garters, and hosiery are among the categories associated with bridal lingerie. Each is constructed differently and can serve a different purpose. A chemise generally offers a one-piece design, while a two-piece set consists of separate coordinating garments. Teddies and bodystockings provide other variations in coverage and construction.

Comfort is another factor identified in Priscilla McCall's bridal lingerie guidance. Fabric, seams, straps, closures, and garment structure can affect how a piece fits and feels when worn. Materials such as lace, mesh, stretch blends, fishnet, and smoother fabrics can also differ in texture and flexibility.

These differences become particularly relevant when selecting lingerie for travel. Honeymoon destinations can involve different climates, activities, and packing requirements. Lightweight garments may be easier to pack, while more structured or delicate pieces can require additional care during transportation.

Personal style can also influence the selection process. Bridal lingerie does not represent a single design or

appearance, and available options range from relatively simple garments to more detailed or decorative styles. Comparing pieces according to individual preferences can provide a more practical basis for selection than following a particular expectation about how bridal lingerie should look.

Sizing is closely connected to fit and construction. Sizes can vary across manufacturers and garment types, making measurements and sizing information important when evaluating different pieces. Priscilla McCall's provides sizing information for measurements such as bust, waist, hips, and cup size, and also lists plus-size lingerie among its available categories.

The range of bridal lingerie in Richmond also extends beyond primary garments. Hosiery, garters, robes, and related accessories may be considered separately depending on the occasion. Some may be intended to accompany another garment, while others can serve a different role during the wedding or honeymoon.

Packing for a honeymoon introduces additional practical considerations. Garments made from delicate materials may require more careful handling, while destination and climate can affect which pieces are appropriate. A warm-weather trip can involve different material considerations than a trip to a cooler destination.

Budget is another factor to consider alongside fit, construction, and intended use. Bridal lingerie is available across different price ranges, and price alone does not determine whether a particular garment is appropriate for a specific occasion. Comparing material, sizing, construction, and expected use can help distinguish among available options.

Priscilla McCall's bridal guidance presents wedding-night and honeymoon lingerie as categories to be evaluated by practical differences rather than a single standard. Fit, fabric, sizing, style, destination, and intended use can all influence which type of garment is being considered. For those researching bridal lingerie in Richmond, the variety of available categories reflects the different roles lingerie can play throughout a wedding and honeymoon. Pieces worn beneath a gown, garments selected for the wedding night, and items packed for travel may each involve different considerations, making intended use an important starting point when comparing options.

About Priscilla McCall's

After more than 30 years in business, Priscilla McCall's continues to occupy a distinct place in adult retail by combining a broad product mix with a more grounded, respectful approach to customer service. That translates into something simple but useful: a place to browse adult toys and related products with more privacy, more clarity, and less awkwardness. For many shoppers, that combination remains the difference between a stressful experience and a comfortable one where one can spark something new each time one

shops.
