

Valley Dumpster Service Expands Dumpster Rental Focus to North Fresno and Clovis Communities

September 30, 2026

FRESNO, CA - September 30, 2026 -

Valley Dumpster Service, a family-owned waste management company with 30 years in the industry, is expanding its service focus to North Fresno and the airport-corridor communities of Clovis, Fig Garden, and surrounding areas. The expansion comes in response to growing demand from homeowners and contractors seeking reliable container options for residential and commercial projects throughout the region.

The company offers containers ranging from 7 to 30 yards, with same-day and next-day delivery available across the expanded service area. The move addresses a steady increase in construction, renovation, and property cleanout activity in the northern portions of Fresno County, where residents and building professionals have reported difficulty securing timely waste disposal solutions.

As part of the expansion, dumpster rental North Fresno customers now have access to the same range of sizes and delivery timelines the company provides across its established coverage zones. The service area includes Clovis, Fig Garden, Sanger, Kingsburg, Kerman, Madera, Fowler, and additional communities in and around the county.

"Demand in the northern part of the county has grown significantly over the past few years, and directing more resources toward those communities was a natural step," said Mike Funk, owner of Valley Dumpster Service. "Contractors working on tight schedules and homeowners tackling weekend projects both benefit from having containers delivered quickly and picked up when the work is done."

The company maintains a fleet of roll-off containers suited to a variety of project types, from small home cleanouts to large construction and demolition jobs. Rentals can be arranged online or by phone, with dumpsters delivered to a specified location and removed once the rental period concludes. Additional days and weight allowances are available for projects that extend beyond a standard rental.

Valley Dumpster Service has built its reputation on straightforward pricing and dependable scheduling, factors the company identifies as central to its growth in the Fresno market. Those searching for dumpster rental Fresno CA options will find the expanded focus provides broader coverage without changes to the container sizes or delivery standards the company has offered for three decades.

The company also operates a pink dumpster program, through which a portion of proceeds from each pink container rental is directed toward breast cancer awareness and research. The program has become a recognized part of the company's identity within the community it serves.

"Serving this region for 30 years has given the team a clear understanding of what local projects require," Funk added. "Extending that experience further into North Fresno and Clovis lets more people in the area rely on service they can plan around."

Customer feedback for the company can be found through Valley Dumpster Service on Google, where the business maintains a record of reviews from residential and commercial clients across its service area.

Valley Dumpster Service is a family-owned and operated company based in Fresno, California. The company provides dumpster rentals in sizes from 7 to 30 yards for homeowners, contractors, and businesses throughout Fresno County, along with roll-off container services for construction, landscaping, and commercial projects.
