

LawnWorks Lawn Care Announces Collaboration With Bret-Mar Landscape to Combine Lawn Care and Landscape Design

November 06, 2026

Crest Hill, IL - November 06, 2026 -
LawnWorks Lawn Care, a family-owned lawn care company based in Joliet, Illinois, has announced a working collaboration with Bret-Mar Landscape to provide homeowners across the southwestern suburbs of Chicago with coordinated lawn treatment and landscape design services. The partnership brings together two family-owned Illinois businesses, each focused on a distinct area of outdoor care, to serve property owners seeking both healthy turf and designed outdoor environments.

LawnWorks Lawn Care has served Joliet and surrounding communities since 1988, offering services that include lawn treatments, lawn fertilization, weed control, liquid aeration, mosquito control, lawn disease control, grub control, overseeding, garden bed weed management and lawn pest control. Bret-Mar Landscape, a second-generation landscape architecture firm, specializes in landscaping, hardscaping and outdoor living spaces such as paver patios, retaining walls, firepits and outdoor kitchens. Through the collaboration, clients working with one company can be connected to the other for services outside each firm's specialty.

The two companies serve many of the same communities throughout the region, including Aurora, Bolingbrook, Burr Ridge, Channahon, Clarendon Hills, Coal City, Crest Hill, Downers Grove, Darien, Elwood, Frankfort, Hinsdale, Homer Glen, Joliet, LaGrange, Lemont, Lisle, Lockport, Montgomery, Manhattan, Minooka, Mokena, Morris, Naperville, New Lenox, Orland Park, Oswego, Plainfield, Romeoville, Shorewood, Tinley Park, Woodridge, Willowbrook, Westmont, Willow Springs, Wilmington and Yorkville.

"Homeowners often need both a well-designed outdoor space and a healthy, maintained lawn, and those have traditionally meant working with two separate providers," said Josh Cull, spokesperson for LawnWorks Lawn Care. "By coordinating with Bret-Mar Landscape, the goal is to make it easier for property owners to handle design and ongoing lawn care without juggling unrelated companies."

The collaboration reflects a shared approach between the two firms. LawnWorks concentrates on turf health through fertilization programs, soil enrichment, aeration and seasonal treatments designed to promote grass growth and root development. Bret-Mar Landscape focuses on the design and construction of outdoor environments, including gardens, patios, driveways, pools and water features. Together, the firms aim to address a property from the ground up, with landscape structures installed by one company and the surrounding lawn maintained by the other.

"Design and lawn care go hand in hand," Cull said. "A newly installed landscape benefits from consistent, knowledgeable maintenance, and this arrangement allows each company to focus on what it does while giving clients a single point of coordination."

Both companies emphasize local ownership and a personalized approach. LawnWorks Lawn Care operates as a family-run business and tailors its lawn care programs to the needs of individual properties and budgets. Bret-Mar Landscape remains a family-owned landscape architecture firm serving communities across the southwestern Chicago suburbs.

LawnWorks Lawn Care is a locally owned, family-run lawn care company based in Joliet, Illinois, serving the southwestern suburbs since 1988 with fertilization, weed control, aeration, pest and disease control, overseeding and related lawn treatments. Bret-Mar Landscape is a second-generation, family-owned landscape architecture firm specializing in landscaping, hardscaping and outdoor living spaces throughout the region.
