

Towne Plumber Expands Plumbing Services With New Location on Main Street in Woodstock

October 21, 2026

WOODSTOCK, GA - October 21, 2026 -

Towne Plumber has opened a new, expanded location on Main Street in Woodstock, Georgia, extending its capacity to serve residential and light commercial customers across Cherokee County and the surrounding areas.

The new Main Street location strengthens the company's presence in the community it has served since 2017. The expansion allows Towne Plumber to accommodate a growing customer base and to respond more efficiently to service requests throughout Woodstock, Canton, Acworth, and neighboring Georgia communities.

As a locally owned and operated, licensed and insured plumbing company, Towne Plumber provides general residential and light commercial plumbing work. Towne Plumber's services include water line repair and replacement, water filtration systems, sewer line diagnostics and replacement, toilet repair and installation, fixture upgrades, garbage disposal installation, and water heater services for both traditional tank and

tankless systems. The company also offers emergency plumbing support for situations such as burst pipes, loss of hot water, and severe leaks.

"The new Towne Plumber location on Main Street reflects the steady growth of our business and the ongoing needs of Cherokee County residents," said Shane Mahaffey, owner of Towne Plumber. "A central location in Woodstock allows the team to reach customers quickly and to keep our plumbing service dependable as demand continues to increase."

The new location positions each plumber on the team closer to the homes and businesses they serve, reducing travel time and supporting the company's focus on prompt, code-compliant plumbing services. Faster response times are particularly relevant for emergency plumbing situations, where delays can lead to significant property damage.

Towne Plumber has built its reputation on reliable service over nearly a decade of operation in the region. The company emphasizes code-compliant plumbing solutions and customer satisfaction across the full range of plumbing projects it handles, from minor leak repairs to complete kitchen and bathroom plumbing remodels.

"Investing in a larger, more accessible location helps us better provide plumbing services to our community," Mahaffey said. "The goal has always been to be there when people need us, and this move supports that commitment across a wider service area in Cherokee County."

Towne Plumber's service offerings span several categories. General plumbing covers garbage disposals, toilet repair and replacement, and bathroom and kitchen plumbing. Water heater services include installation, replacement, repair, and maintenance for both traditional and tankless units, with tankless systems providing hot water on demand. Drain and sewer services cover drain cleaning, clog removal, and sewer line inspection and repair. Water line and pipe services include leak detection, repair, and replacement for issues ranging from minor leaks to major pipe work.

Towne Plumber is a locally owned and operated plumbing company based in Woodstock, Georgia. Operating under the tagline "Fast, Reliable, and Here When You Need Us," the company has served Cherokee County and the surrounding areas since 2017. It specializes in general residential and light commercial plumbing, offering water line, sewer, drain, fixture, and water heater services, along with emergency plumbing support. The company is licensed and insured and serves customers in Woodstock, Canton, Acworth, and additional Georgia communities, including Roswell, Holly Springs, Kennesaw, and Marietta.
