

Patrick A. Finn LTD Highlights Kitchen Remodeling Ahead of Holiday Entertaining Season

September 28, 2026

PALATINE, IL - September 28, 2026 -

Patrick A. Finn, LTD, a design-build firm based in Palatine, Illinois, is drawing attention to kitchen renovation planning as homeowners across the northwest Chicago suburbs prepare their homes for the holiday entertaining season. With gatherings often centered in the kitchen, the firm notes that many families are evaluating layout, functionality, and long-term livability before the busiest hosting months arrive.

The timing reflects a familiar seasonal pattern among Cook and Lake County homeowners. As colder weather approaches and holiday plans take shape, interest in kitchen improvements tends to rise. The firm reports that early planning allows homeowners to make informed design decisions rather than rushing renovations to meet a specific date.

Patrick A. Finn serves communities including Arlington Heights, Barrington, and surrounding areas, offering a range of residential construction services such as home remodeling, home additions, custom home building, historic renovation, basement remodeling, and bathroom remodeling. Among these services, Patrick A. Finn,

LTD kitchen remodeling remains one of the most requested as households look to combine everyday practicality with spaces suited for hosting.

According to the firm, effective kitchen projects address more than appearance. Considerations such as workflow, storage, lighting, and durable materials all contribute to how a space performs during high-use periods. The company emphasizes resolving design and infrastructure details before construction begins, an approach intended to reduce disruption for homeowners.

"Kitchens carry much of the weight during the holidays, and homeowners tend to notice their limitations most when the house is full," said Patrick Finn, founder of Patrick A. Finn, LTD. "Planning ahead gives families the time to think through how they actually use the space, rather than making quick choices under pressure."

Finn added that thoughtful planning benefits homeowners well beyond a single season. "A kitchen designed with intention continues to serve a household long after the holidays end," he said. "The goal is craftsmanship and function that hold up year after year, not a temporary fix."

The firm's guidance encourages homeowners to begin conversations early, allowing sufficient time for design development, material selection, and scheduling. This approach helps align project timelines with realistic expectations, particularly for those hoping to enjoy updated spaces during future gatherings.

Patrick A. Finn, LTD has received industry recognition for its work, including being named a 2025 Remodeler of the Year Award winner by the National Association of the Remodeling Industry, Greater Chicagoland chapter, in the Entire House category for projects ranging from \$250,000 to \$500,000. Patrick Finn has also been selected to judge the 2026 Master Design Awards.

Patrick A. Finn, LTD is a design-build firm serving homeowners throughout Cook and Lake Counties in Illinois. The company provides residential construction services including home remodeling, kitchen remodeling, home additions, custom home building, historic renovation, basement remodeling, bathroom remodeling, whole-house remodeling, and aging-in-place solutions. The firm focuses on intentional design, true craftsmanship, and long-term performance across each project it undertakes.
