

Cammile Q Launches New Aloe Vera Oil For Skin

June 09, 2016

June 09, 2016 - PRESSADVANTAGE -

Cammile Q is happy to announce the launch of a new Aloe Vera oil for hair and skin. The oil is launched on Amazon as part of Cammile Q's line of high-quality natural products.

"We are very happy to announce the launch of our new Aloe Vera oil," said Sarah Davis, spokesperson for Cammile Q. "Aloe Vera has many great capabilities that make it great for skin care. We are therefore looking forward to feedback from our customers. We are certain they are going to love this oil, as they love our other natural oils."

Cammile Q already offers a wide variety of natural oils for skin care. All of their oils have different capabilities that are great for the skin. Argan oil will help you with soft and smooth skin. Tamanu oil is great for acne. And castor oil is a great moisturizer. The Aloe Vera oil is a great addition to the already established oils, as Aloe Vera is known for its capabilities for skin treatments.

About Aloe Vera

Aloe Vera has been used for thousands of years to treat and heal skin conditions. Historically it has been used topically to treat wounds and burns, and scientific studies have now also shown that Aloe Vera gel may

help heal wounds and burns. Aloe is also often used as an after sun treatment.

Aloe Vera isn't a true oil by itself, but must be mixed with a carrier oil to make oil. The oil will then contain the properties of aloe.

The Cammile Q Aloe Vera oil is certified USDA organic.

About Cammile Q

Cammile Q offers several skin care and hair care products in the US markets. The products are for sale on Amazon and Cammileq.com.

Every product is carefully selected for its effectiveness for skin care and hair care, and the focus has always been on providing products that have a major effect on skin and hair.
