

Bright Bay Mazda Details Certified Pre-Owned Mazda SUV Coverage for Bay Shore Drivers

November 10, 2026

BAY SHORE, NY - November 10, 2026 -
Bright Bay Mazda has issued a detailed explanation of the protections and benefits that Long Island drivers receive when purchasing a Mazda Certified Pre-Owned SUV, clarifying how these vehicles differ from standard used cars. The family-owned dealership, which has served Suffolk and Nassau County drivers for more than five decades, aims to help shoppers understand the inspection standards and warranty coverage tied to the certification process.

Every vehicle in the lineup of certified pre-owned Mazda SUVs on Long Island passes a 160-point inspection performed by a factory-trained Mazda technician. The inspection reviews the engine, transmission, brakes, air conditioning system and overall mechanical condition to confirm that each vehicle meets Mazda's certification standards before it is offered for sale.

Certified vehicles carry a 12-month or 12,000-mile limited vehicle warranty and a 7-year or 100,000-mile limited powertrain warranty. Both warranties are measured from the vehicle's original in-service date, and

covered repairs carry no deductible. The coverage transfers to future owners at no cost, which can add value should the owner later decide to sell the vehicle.

Alongside the warranty protection, each certified vehicle includes 24-hour roadside assistance for the duration of the powertrain warranty. That assistance covers jump starts, lockouts, flat tires, towing and fuel delivery, providing support for drivers who encounter unexpected issues on the road.

"Many drivers assume a used vehicle and a certified pre-owned vehicle are the same thing, and that is not the case," said Christian Galindo, General Sales Manager at Bright Bay Mazda. "A Mazda Certified Pre-Owned SUV has to clear a 160-point inspection by a factory-trained technician, and it comes with warranty coverage and roadside support that a typical used car simply does not include. The goal is to give buyers clear information so they understand exactly what they are getting."

The certified inventory typically includes models such as the CX-30, CX-5, CX-50 and CX-90, giving shoppers a range of options for different household needs. Each certified vehicle is accompanied by a CARFAX or AutoCheck vehicle history report that outlines ownership and accident history.

"Transparency matters to the people who shop here," Galindo added. "When someone sees the inspection checklist and the warranty terms laid out clearly, they can make a decision with confidence rather than guesswork."

Buyers who prefer the latest model year can also review new Mazda SUVs at the dealership, which stocks the current Mazda lineup in addition to its certified and pre-owned inventory. Shoppers are able to compare models, schedule test drives and review financing options tailored to a range of credit situations.

Bright Bay Mazda is a family-owned dealership located at 1200 Sunrise Hwy in Bay Shore, New York, with more than 55 years of experience serving the region. The dealership serves drivers in West Islip, Babylon, Deer Park, Commack and Massapequa, offering new and pre-owned vehicle sales, financing, trade-in services, genuine Mazda parts and a service department staffed by factory-trained technicians. The dealership emphasizes a transparent, no-pressure buying experience and long-term customer relationships throughout Suffolk and Nassau County.
