

Santana Rodriguez Law PA Launches Website Redesign

June 13, 2016

June 13, 2016 - PRESSADVANTAGE -

Santana Rodriguez Law PA is pleased to announce the long awaited redesign of the law firm's website (www.srlawpa.com). It now provides their web visitors with an easy, modern and informative online experience.

Santana Rodriguez Law PA specializes in Immigration Law, Business Law, and Real Estate Law. Now the firm can better serve their growing client base by providing information related to the areas of practice that their team offers.

"We are excited about the new website which was specifically designed with mobile in mind," explained Shareholder Jonathan J. Rodriguez. "Mobile traffic accounts for almost 2/3 of the searches made online and that is expected to continue."

"One of the most commonly asked questions we receive about our practice is, 'What type of immigration cases do you handle?' Our website now addresses this question by detailing all of the types of cases we help with," said Elina M. Santana, the lead immigration Shareholder in the practice.

The new Santana Rodriguez Law PA website has simple, straightforward navigation and will be updated on a regular basis with news, information related to practice areas, recent cases and items that may be of interest to their clients.

Please visit www.srlawpa.com for more information on Santana Rodriguez Law PA or their new website.
