

Dixie Glass Gulf Coast Expands Residential Glass Contractor Services for Pascagoula Homeowners

October 05, 2026

PASCAGOULA, MS - October 05, 2026 -

Dixie Glass Gulf Coast has highlighted a growing demand among area homeowners for custom residential glass work, ranging from the replacement of fogged window panes to the installation of frameless shower enclosures. The family-owned company, which has operated along the Mississippi Gulf Coast since 1946, reports that seasonal remodeling projects and energy-efficiency upgrades continue to drive interest in precision glass solutions throughout the region.

As a Dixie Glass Gulf Coast residential glass contractor, the company designs and installs frameless shower enclosures, custom-cut mirrors, and replacement glass for windows that have become fogged or broken over time. These services address common concerns for homeowners who are either renovating interior spaces or seeking to improve the comfort and efficiency of their homes.

Fogged window glass, a frequent issue in coastal climates where humidity and temperature shifts place stress on sealed units, remains one of the most common reasons residents contact the company. Replacing the affected glass can restore clarity and help reduce energy loss, according to company representatives.

"Homeowners often assume a foggy window means replacing the entire frame, when in many cases only the glass unit needs attention," said Sean Westmoreland of Dixie Glass Gulf Coast. "The same precision that goes into a frameless shower enclosure applies to window work. Measuring correctly and fabricating in-house allows the team to deliver results that fit each home."

The company maintains in-house fabrication capabilities, which it credits with allowing faster project turnarounds and consistent quality control on custom residential jobs. This approach supports work on decorative elements as well, including custom mirrors and glass tabletops that homeowners request during remodeling projects.

"Each home presents its own set of measurements and design preferences," Westmoreland added. "Custom fabrication means the glass is made to match the space rather than forcing the space to match a standard size."

Dixie Glass Gulf Coast in Pascagoula, Mississippi, serves residents throughout the surrounding communities, with additional service areas extending from Gulfport and Biloxi eastward. The company notes that its residential division operates alongside its auto glass, commercial glass, and retail fabrication services, giving area customers a single local resource for a wide range of glass needs in Mississippi.

Dixie Glass is a family-owned glass services provider that has operated on the Mississippi Gulf Coast since 1946. The company offers auto glass services, residential glass services, commercial glass services, retail and custom glass fabrication, and decorative glass work. Its auto glass division includes windshield and door glass replacement, chip repair, and in-house ADAS recalibration, while its commercial division handles storefront systems, curtain wall installations, and contract projects.

The company is licensed, insured, and certified by leading industry organizations. Its team includes Auto Glass Safety Council Certified Technicians, and the company holds Mississippi State Board Certified Contractor status. Dixie Glass has been named to the Inc. 5000 list of fastest growing small businesses in 2020 and 2023, recognized as the Glazier Nation Glass Company of the Year for 2024, and named a recipient of the 2025 WXXV Viewers Choice Award.
