

Cornerstone Handyman Services Announces Door Installation and Repair Offerings for Joplin Metro Homeowners

November 09, 2026

JOPLIN, MO - November 09, 2026 -
Cornerstone Handyman Services LLC has announced a dedicated range of door installation, replacement, adjustment, and repair services for homeowners across the Joplin Metro area. The offering covers both interior and exterior doors and addresses common structural and functional issues that affect residential properties throughout Southwest Missouri.

The newly outlined services include full door and frame removal and replacement, structural support repair for rotted or failing thresholds, and hardware adjustments that help doors open, close, and latch properly. Cornerstone Handyman Door Installation work spans standard entry doors, interior passage doors, and larger projects that require careful fitting and finishing.

The company, owned and operated by Blake Anthony, brings more than five years of experience and over 100 completed projects to the service area, which includes Carthage, Webb City, and Carl Junction. Past

completed work includes replacing a failing sliding patio door that had a rusted rail and rotted frame, as well as converting a window opening into a full-glass exterior entry door.

The process for homeowners is straightforward. Customers call or submit project details online, receive a free, no-obligation estimate, and schedule the work. Many single-door installations are completed within a few hours, and all work is backed by full liability insurance for homeowner protection.

"Doors take more wear than most homeowners realize, and problems often start with a failing threshold or a frame that has begun to rot," said Blake Anthony of Cornerstone Handyman Services LLC. "The goal is to address the root of the issue, not just the symptom, so a door functions properly for years rather than months."

The door services expand an existing portfolio that spans general repairs and routine maintenance, custom carpentry and woodworking, interior painting and drywall repair, basic plumbing and electrical services, and home installations and renovation projects. This range allows homeowners to rely on a single provider for a variety of maintenance and improvement needs.

"Every home is treated the same way as a personal residence would be, with attention to detail and clean workmanship on each visit," Anthony added. "Clear communication and dependable service remain the foundation of how projects are handled from the first call to the final walkthrough."

Cornerstone Handyman also contributes to the local economy by offering employment opportunities for skilled individuals interested in the construction and handyman industry. This focus on workforce development reinforces the company's role as both a service provider and a community partner in the region.

Cornerstone Handyman Services LLC is a Joplin, Missouri-based company that provides residential repair and maintenance solutions for homes in the Joplin Metro area and surrounding communities. The fully insured, locally owned business is operated by Blake Anthony, who emphasizes personalized care, quality craftsmanship, and treating every home with respect. Services include general repairs and routine maintenance, custom carpentry and woodworking, interior painting and drywall repair, basic plumbing and electrical services, home installations, renovation projects, and door installation and repair.
