

Good Neighbor Storage Launches Dedicated RV, Car and Boat Parking for Neosho Vehicle Owners

November 16, 2026

NEOSHO, MO - November 16, 2026 -
Good Neighbor Storage, a newly built self-storage facility in Neosho, Missouri, has introduced dedicated outdoor vehicle parking for area residents who need a secure place to keep cars, boats, RVs, trailers, and other recreational vehicles. The addition gives vehicle owners a practical option for items that do not fit easily in a driveway, backyard, or apartment lot.

The new Good Neighbor Storage RV, Car, and Boat Parking spaces are designed with wide maneuvering room and easy pull-in and back-out access, allowing owners of larger vehicles to position and retrieve their property without difficulty. The outdoor parking areas are available around the clock, giving renters the ability to access their vehicles at any hour. By keeping vehicles in a dedicated space when they are not in use, owners can reduce exposure to weather and everyday wear.

The parking spaces complement the broader range of options at the facility, which include traditional self-storage units sized from compact 10x10 spaces to large outdoor areas suitable for recreational vehicles,

boats, and commercial equipment. The site features ground-level access with no stairs or elevators, roll-up doors, and month-to-month leases. Renters can complete the process online through the company's rental portal, with online move-in, online bill pay, and autopay options available. Available parking spots can be browsed and reserved directly through the same portal.

Cory Platt, speaking for Good Neighbor Storage, said the vehicle parking option responds to a common need among local households. "Many people in the community own a boat, a camper, or a trailer and simply do not have the room to keep it at home," Platt said. "The dedicated parking spaces give those owners a straightforward place to store their vehicles, with enough room to move in and out comfortably."

Platt noted that the facility was planned to serve a wide spectrum of storage needs. "The goal is to support the community through every situation, whether that means temporary space during a home renovation, room for business inventory, or a secure spot for a vehicle that stays parked for part of the year," Platt said. "Ground-level access and flexible month-to-month terms were part of the design from the start."

In addition to vehicle parking and standard units, Good Neighbor Storage offers business storage solutions for paperwork, inventory, overstock, construction materials, seasonal equipment, and tools, helping local companies operate without the burden of managing excess materials on-site. The company also operates a full-service moving center that provides packing supplies, boxes, moving trucks, and cargo trailers, along with partnerships with professional movers to support customers throughout relocation.

Good Neighbor Storage is a Christian-owned self-storage facility serving Neosho, Missouri. The company provides self-storage units, business storage solutions, vehicle storage, and moving center services guided by faith-based values. The facility emphasizes clean, well-maintained grounds and a welcoming environment for every customer, with a stated focus on serving and uplifting the surrounding community.
