

Painting Contractor Formalizes Coverage Following Homeowner Demand

October 08, 2026

Steep Hollow, Texas - October 08, 2026 -

Guaranteed Painting Company has formalized its residential painting coverage in Spring, Texas, following a steady pattern of homeowner inquiries from the community reaching its office in The Woodlands. The decision brings local homeowners under the same crews, scheduling standards, and written-quote process the painting contractor already runs from its two locations in Bryan and The Woodlands.

Guaranteed Painting Company provides residential painting for homeowners across Spring, covering interior and exterior painting together with the preparation and repair work that comes before a finish coat. Spring sits a short distance south of The Woodlands and is one of the North Houston communities the company has identified as a priority for growth.

Each new project follows the company's six-point guarantee, a defined set of standards crews are expected to meet on every job. Inquiries are answered on the day they arrive, and homeowners receive a written quote the same day. Once work begins, the crew keeps to the agreed schedule and sends daily progress updates.

A foreman inspects every job twice, once at the start and again at the finish.

Interior projects draw on several of the firm's sub-services. Dents, cracks, and old patches are addressed through drywall repair so walls take paint evenly, while popcorn ceiling removal clears dated textured ceilings so a room can be refinished from the top down. Before any paint is opened, color consultation helps homeowners settle on a palette, reducing the risk of a finished room that does not match what was planned. Where a room calls for more than a repaint, the same crews also handle texturing, staining, and clear finishes.

Coordination for work in the area runs through the office in The Woodlands, which already manages the company's work across North Houston. Crews receive on-site training, and foremen oversee each project from the initial walk-through to sign-off. Homeowners who contact the company typically want a contractor that communicates well, stays on schedule, and leaves a clean, professional finish, and the guarantee's daily updates and foreman inspections are set up around those expectations.

"Over a period of time we saw a consistent flow of calls from Spring homeowners coming into our Woodlands office, and it made sense to formalize what we offer there," said Doug Caris, CEO of Guaranteed Painting Company. "Families there will get the same promises we make everywhere we work, from a written quote the same day to a foreman's inspection at the start and finish of the job. Our A+ rating from the Better Business Bureau and a 5.0-star Google rating across more than 100 reviews at our two locations represent the reputation we intend to carry with us."

The company has been in business in Texas for over 20 years and has held accreditation with the Better Business Bureau since 2013, with an A+ rating. It is fully bonded, licensed, and insured, and backs its work with warranty options. Residential and commercial projects are handled under one roof, with a separate commercial division taking on larger buildings. Work on both sides is carried out by experienced crews using premium materials.

Typical residential projects include repainting rooms in colors that have dated, correcting unfinished or poor work left by a previous contractor, and refreshing a property before it goes on the market. Before a larger job, a home painting evaluation can assess the condition of walls, trim, and exterior surfaces and set out the preparation required. Exterior work follows a preparation sequence of power washing, scraping, caulking, and sanding, with damaged boards replaced before any coating is applied. That same sequence applies to local homes as it does across the rest of the company's service area.

For Spring homeowners, the change means residential painting is delivered under the same written process and inspection standards already in place in The Woodlands and Bryan. Further information about the service is available on the company's website, and news from the business is shared on its Facebook page.
