RV Service Promotion Offers Up to $500 in October Savings

October 08, 2026

MESA, AZ - October 08, 2026 -
Arizona RV Service is highlighting an October warranty promotion for RV owners seeking additional protection against unexpected repair costs, with qualifying warranty packages eligible for savings of up to $500 through October 31, 2026. The Mesa-based RV repair facility is offering this as part of its broader warranty and service contract support for recreational vehicle owners in Mesa and the Greater Phoenix Area.

The October promotion applies to qualifying warranty packages purchased during the promotional period. Arizona RV Service notes that available coverage, terms, deductibles, eligibility, and pricing vary by RV and selected plan, and that the maximum savings depend on the qualifying package. Customers considering the offer can contact Arizona RV Service directly for current eligibility and promotional details before the October 31 deadline.

The warranty promotion adds a timely element to Arizona RV Service?s established role in RV repair and maintenance. Since 2006, the company has handled collision and bodywork, roof repairs, electrical and generator service, heating and air conditioning repairs, plumbing, suspension work, and other RV systems. The business serves different types of recreational vehicles, including campers and motorhomes.

Warranty coordination is part of the company?s service process. Our RV Service works with manufacturer warranties as well as third-party and dealer-backed extended service plans. For eligible customers, the company can assist with service-claim paperwork and coordination with warranty providers, helping connect covered repair needs with the appropriate plan requirements.

The company?s repair capabilities extend from exterior damage to internal systems. Collision and bodywork includes fiberglass repair, paint and refinishing, frame straightening, and suspension-related damage. Arizona RV Service also handles roof repair and replacement, addressing leaks and other problems that can affect the vehicle?s exterior and interior.

Maintenance and system repairs cover generators, electrical components, air conditioning, furnaces, plumbing, water heaters, fresh-water lines, brakes, tires, wheel bearings, and hitch installations. Technicians also service windows and slide-outs, giving RV owners access to repairs involving many of the systems used during travel.

Arizona RV Service also provides mobile RV repair when bringing a vehicle to the Mesa facility is not practical. Depending on the RV?s location and the nature of the service needed, technicians may be able to provide service at a home, campground, or storage location within the company?s listed service areas. A service request allows the team to review the situation and determine whether mobile service is appropriate.

For collision repairs, the company follows a process that includes reviewing the damage, disassembling affected areas as needed, completing repairs and paintwork, refinishing surfaces, conducting quality-control inspections, and preparing the RV for delivery. This process is intended to address both visible damage and issues uncovered during the repair.

The October warranty promotion gives RV owners an opportunity to review available service-contract options before the offer ends. Arizona RV Service offers CornerStone vehicle service contract options, including Select and Ultimate Coverage, and notes that coverage levels, eligibility, deductibles, terms, and pricing vary by plan and vehicle. Full promotional details and current eligibility should be confirmed directly with Arizona RV Service.

RV owners can request service or learn more about available warranty and repair options by visiting https://www.arizonarvservice.com/. Arizona RV Service can also be reached at (480) 470-1163 or at its facility at 1700 E Main St, Mesa, AZ 85203.

Arizona RV Service has served RV owners in Mesa and the Greater Phoenix Area since 2006. The company provides RV service for collision damage, bodywork, roof repairs, electrical and generator systems, HVAC, plumbing, suspension, brakes, tires, windows, slide-outs, and other maintenance needs. Arizona RV Service works with major warranties and insurance plans and provides mobile service in eligible areas.
