

Piedmont Paint & Finish Expands Service Areas With Professional Painting Solutions

October 14, 2026

Charlottesville, VA - October 14, 2026 -

Piedmont Paint & Finish, a painting contractor serving Charlottesville, Virginia, has expanded its reach across a growing number of service areas to meet rising demand from residential and commercial property owners. The expansion broadens access to the company's interior, exterior, and specialty finishing work for communities throughout the region.

The move reflects increased interest in property maintenance and refreshing among homeowners and business operators alike. By extending coverage, the company aims to serve a wider base of clients seeking skilled application, careful preparation, and durable results.

The Piedmont Paint & Finish painting service covers residential and commercial projects, along with furniture refinishing and power washing. For residential properties, the company provides both interior and exterior painting, supported by color and product consultation drawn from years of industry experience. Commercial clients receive attention suited to larger-scale applications, where efficiency and consistency

across surfaces are central concerns.

The company also operates a dedicated paint shop service that focuses on cabinets, casework, and furniture. This work includes refinishing, spray application, and custom finishes, with an emphasis on preserving the character of antique and heirloom pieces. Power washing rounds out the offerings, removing dirt, grime, and mold from exterior surfaces for both homes and businesses.

Charles Davis, owner of Piedmont Paint & Finish, said the expansion responds directly to patterns the company has observed in recent requests.

"Demand for careful, well-executed finishing work has grown steadily across the areas surrounding Charlottesville," Davis said. "Extending the service areas allows the team to reach property owners who were previously outside the standard coverage region while maintaining the same standards of preparation and finish."

The company emphasized that the broader coverage does not change its approach to individual projects. Each job begins with surface assessment and preparation, followed by application using materials selected for longevity. Color consultation remains available to clients who want guidance in selecting palettes for interior rooms, building exteriors, or commercial spaces.

"Expanding into new areas is about availability, not shortcuts," Davis added. "The same process that applies to a single room applies to a full commercial building, regardless of where the project is located within the service region."

Alongside its contracting work, Piedmont Paint & Finish runs a paint store, Pigment Paint Supply, where customers can purchase paint brands including Mythic, Ferrell Calhoun, and the locally made Good Bones Paint. The store also carries supplies and specialty paints for individuals handling their own projects.

The expanded coverage is in effect for new inquiries across the growing service areas. The company continues to handle residential painting, commercial painting, shop painting, and power washing as part of its standard range of work.

Piedmont Paint & Finish is a painting company based in Charlottesville, Virginia. The company provides residential painting, commercial painting, shop painting, and power washing, and operates a paint store offering a variety of paint brands and supplies. The team works across interior and exterior projects with a focus on preparation, quality materials, and finished results that hold up over time.
