

SmartAdvocate® Adds Cypress Grove Technologies to its Growing List of Partners

June 15, 2016

June 15, 2016 - PRESSADVANTAGE -

SmartAdvocate®, the incredibly powerful, web-based, integrated case management system designed for personal injury and mass tort litigation practices is pleased to announce that it has added Cypress Grove Technologies to its growing list of business partners.

With over 20 years of experience in the Information Technology industry (IT), Cypress Grove is able to offer its clients top quality managed IT services, cyber security, IT design, and architecture services, state-of-the-art solutions and expert support. Of particular interest to SmartAdvocate clients and other law firms will be a cutting edge, proprietary backup solution offered by Cypress Grove that utilizes military grade encryption technology.

"We are delighted to add Cypress Grove Technologies to the growing list of companies that have partnered with SmartAdvocate®," said Arnie Baum, COO of SmartAdvocate®. "A number of SmartAdvocate® customers already rely on Cypress Grove to handle their IT needs, and others will benefit greatly from their expertise and technology. This step further enhances our business relationship and our joint commitment to bring the highest quality of support to our clients."

“We are excited to announce our partnership with SmartAdvocate® and the added value it brings to clients of both our organizations,” said Berkan Mustafa, President of Cypress Grove. “SmartAdvocate® is the best case management system available. We’ve had the opportunity to work with them and look forward to adding many more mutual clients.”

About SmartAdvocate®

SmartAdvocate® is an incredibly powerful, web-based, fully integrated case management system. Initially designed principally for personal injury and mass tort litigation practices, SmartAdvocate® is now used by a continually growing range of litigation firms.

SmartAdvocate® was designed by attorneys who understand the challenges that legal professionals face in terms of case management. SmartAdvocate® allows firms to completely manage their cases, no matter how complex or voluminous. SmartAdvocate® clients can store, track, manage, classify case information and documents, and communicate in a manner that allows them the highest level of success, and its myriad reports give law firms the tools to effectively manage their practices.
