

Gulf City Body & Trailer Works Expands Truck and Trailer Parts Inventory for Gulf Coast Haulers

October 27, 2026

Mobile, Alabama - October 27, 2026 -
Gulf City Body & Trailer Works, Inc has broadened its parts inventory to better serve commercial fleets and independent operators across the central Gulf Coast region. The expanded selection of national and brand name components is now available to customers in Mobile, Fairhope, Daphne, and Gulf Shores, Alabama, as well as Pensacola, Florida.

The Mobile-based repair and sales facility has built its reputation over more than seven decades of service to the trucking and transportation industry. The recent inventory expansion reflects rising demand for trailer components, fuel tanker hardware, and flatbed equipment throughout the region. By stocking a deeper range of truck and trailer parts, the company aims to reduce downtime for operators who depend on prompt access to replacement components.

The parts department carries an extensive range of trailer and tank items, including miscellaneous components and hardware. These additions support the company's broader operations, which span repair,

maintenance, and the sale of new, used, and rental trailers. The facility sits on 10 acres adjacent to Interstate 10, with 50,000 square feet under roof dedicated to sales, service, parts, and rental needs.

"The transportation industry across the Gulf Coast continues to grow, and operators need reliable access to the components that keep their equipment moving," said Paul Averitt of Gulf City Body & Trailer Works, Inc. "The expanded inventory allows the team to fill more orders quickly and keep trailers and tankers on the road where they belong."

The company serves a wide service area, including Alabama, Mississippi, Louisiana, Georgia, and northwest Florida. Its location near the junction of Interstate 10 and Interstate 65 places it within convenient reach of fleets operating throughout the coastal corridor, from Mobile and the eastern shore communities of Fairhope and Daphne to the beach destinations of Gulf Shores and Pensacola.

"Honest service and quality parts have guided the company for generations," Averitt added. "The goal remains the same today as it has always been, which is to help customers get the right part at a fair price without unnecessary delay."

Gulf City Body & Trailer Works maintains memberships in the National Truck Equipment Association and the National Tank Truck Carriers, as well as the Alabama, Mississippi, and Florida Petroleum Association. These affiliations reflect the company's standing in the regional transportation and petroleum-hauling communities. Customers seeking specialized trailer or tank components can contact our team of experts today by phone at 251-438-5521.

Gulf City Body & Trailer Works, Inc is a full-service repair facility based in Mobile, Alabama. The company specializes in repairing, maintaining, and selling all makes and models of trailers, fuel tankers, and flatbeds. In addition to an expansive parts department, it offers new, used, and rental trailers from trusted partners along with other trucking equipment. With more than 74 years of industry experience, the company serves customers throughout Alabama, Mississippi, Louisiana, Georgia, and northwest Florida from its 10-acre facility near Interstate 10.
