

OneTapTee Launches Custom Photo Apparel Store With No Minimum Order

October 29, 2026

SCOTTSDALE, AZ - October 29, 2026 -
OneTapTee launched an online custom apparel and gift store in October 2026 that lets shoppers upload a photo, drawing or logo and preview it on t-shirts, hoodies, hats, mugs and blankets before placing an order. The store has no minimum order quantity, and each item is printed to order in the United States.

Personalized clothing orders can involve minimum quantities or a proof approval step before a buyer sees how a finished design will look. OneTapTee's online editor instead places a single uploaded image across the store's product range shortly after upload, so a customer can compare items and then order one piece or a full set for a group.

"Most people who want a shirt with a pet, a child or a company logo on it are not looking to fill out a quote form and wait," said Thomas, founder of OneTapTee. "They want to see the design on the product right away and order just one, and that is what the store was built to do."

Customers start by choosing a product style and uploading a PNG or JPG file. The design is then displayed on several products, including on a model for most apparel, and the editor flags images that are too small to print clearly. After the customer confirms placement, the order is printed and shipped. The company estimates that most orders within the United States arrive in three to eight business days including production, and each product page shows an estimated arrival range for orders placed that day.

The catalog is organized around common occasions, including pet portraits, family reunion shirts, memorial keepsakes and photo gifts for couples and new parents. The store also carries a line of premade designs created in-house by OneTapTee, among them seasonal Christmas, Halloween and fall collections and a range of embroidered hats.

For the holiday season, the company has added Christmas items that can carry family photos and names, such as ornaments, stockings, blankets and matching family shirts, collected on the store's Christmas gifts page. OneTapTee recommends that customers in the United States place holiday orders by December 8, 2026, for estimated delivery before Christmas.

In addition to individual orders, OneTapTee supplies logo apparel for businesses, schools and teams, including polos, hats, workwear and embroidered items. Organizations planning orders of more than 50 pieces can request a project quote through the company's group orders page, and the company responds to quote requests within one business day.

"The process is the same whether the order is one shirt for a birthday or fifty for a family reunion," Thomas said. "The customer uploads a picture and sees it on the product, and we handle the printing and delivery."

More information about the store and its product range is available at onetaptee.com.

About OneTapTee: OneTapTee is an online custom apparel and gift company that prints customer photos, artwork and logos on t-shirts, hoodies, hats, mugs, blankets and other products. The company has no minimum order requirement and produces its items to order in the United States. Business and group apparel quotes are available at onetapteeprinting.com.
