

Mobile Mechanic Upland Adds Mobile Dent Repair To List Of Services

July 22, 2016

July 22, 2016 - PRESSADVANTAGE -

Mobile Mechanic Upland, a business in Upland, CA, that performs vehicle repairs at a location of the customers' choosing, is happy to announce the addition of mobile dent repair to its list of services. The company explained that for many people, having minor repairs completed on a vehicle is really inconvenient, as they are not always able to get to a garage. In some cases, their vehicle may not even start, which means it needs to be repaired right there. The company offers a free, no obligation quotation. More details are available at <http://www.mobilemechanicupland.com>.

Enrique Lewis from Mobile Mechanic Upland says: "Once upon a time, dents could only be repaired in a garage, which often would take several days and would be incredibly expensive as well. Thanks to developments in technology, we can now repair dents on the spot, at a location convenient to our customer. This means we can save them both time and money. On top of that, our services are often more affordable compared to traditional garages."

The majority of the automobile dent repair tasks can be completed on the same day. This means that customers can avoid costly repairs at a body shop repair garage. The company also promises to be on site as soon as possible, so that people don't need to wait for a long time before being able to get the help that they need.

Those who have used the service have been very pleased with the results. "Picture the scenario: My boss tells me I've got an important client to pick up from the airport tomorrow but I've still got a dent in the company car to fix," says Al H. on the company's website. "The team at Mobile Mechanic Upland quickly came to my rescue. They repaired the car whilst I was at work allowing me to pick up the client with a fully restored vehicle. Thanks guys."

Those who need a dent to be repaired or who require any other kind of auto repair service are encouraged to contact Mobile Mechanic Upland. They can also visit the company website to get more information on the available mobile vehicle repair services.
