

Dandy Auto Introduces Winter Tires Seasonal Special With Complimentary Wheel Alignment Check

November 19, 2026

AIRDRIE, AB - November 19, 2026 -
Dandy Auto/Marine/RV Ltd. has introduced a Winter Tires Seasonal Special that provides customers with a complimentary wheel alignment check when they purchase any four winter tires. The seasonal offer arrives as drivers across Airdrie, Calgary, and the surrounding Rocky View County communities prepare their vehicles for Alberta's demanding winter driving season.

Southern Alberta winters place considerable stress on vehicles, with cold temperatures, snow, ice, and slush persisting for a significant portion of the year. Winter tires are engineered specifically for these conditions, using flexible rubber compounds that remain pliable in cold temperatures, deep tread grooves that evacuate snow and slush, and small tread slits known as sipes that improve grip on ice and hard-packed snow. All-season tires, by contrast, tend to harden and lose traction as temperatures fall.

The complimentary wheel alignment check forms the central element of the seasonal promotion. The inspection helps determine whether a vehicle's wheels are properly aligned, a factor that directly affects how

new winter tires perform and how long they last. Improper alignment can contribute to uneven tire wear, affect handling and stability, and shorten the useful life of a new set of tires. By identifying alignment concerns at the time of installation, drivers gain the information needed to protect their investment before small issues develop into costly replacements.

The offer includes a complimentary alignment check. Should the inspection reveal that an adjustment is advisable, any additional alignment service would be arranged separately. The approach reflects the company's focus on preventive maintenance and on giving drivers clear, practical information about the condition of their vehicles.

Industry guidance notes that all-wheel drive and four-wheel drive systems improve grip and acceleration but do not shorten stopping distances on icy surfaces. Properly installed winter tires remain essential for braking and control in winter conditions, regardless of a vehicle's drivetrain.

Dandy Auto has served the airdrie community and surrounding areas for more than 35 years. The team brings over 100 years of combined automotive experience to its work, and the facility is certified by both CAA and AMA. Services related to the winter season include winter tire installation, vehicle inspections, wheel alignment services, and a full range of preventive automotive maintenance. The seasonal special continues a long record of helping local drivers maintain safe and reliable vehicles throughout the winter months.

Dandy Auto/Marine/RV Ltd. is a full-service automotive and marine facility located in Airdrie, Alberta, serving the Greater Calgary area since 1993. The company began as an auto garage and expanded into a comprehensive operation offering automotive repair, vehicle inspections, routine maintenance, marine service and winterization, and recreational vehicle storage. It is a CAA/AMA certified facility staffed by professional technicians and ranks among the few Volvo Penta certified marine shops in Alberta. The company has long been a contributing member of the airdrie community, supporting local charities, an annual food drive for the Airdrie Food Bank, and youth programs throughout the region
