Pro Pad Inc., a business in Mooresville, NC, has announced that they have created a new flag to advocate Second Amendment rights. Details about the flag are available at <http://www.thepropad.com/second-amendment-motorcycle-flag/>. Second Amendment rights is a highly debated topic in the US today. With Democratic senators recently staging a sit in protest to demand gun reform laws, the debate is now stronger than ever. That is why the company has introduced a motorcycle flag that shows support for the right of people to own guns.

Mike Enzwiler from Pro Pad Inc. says: "During a time when gun rights are a concern of the nation, we felt it was necessary to give people the opportunity to show the country where they stand. Our nation has been built on the right to bear arms, and it is time we showed our support for this idea. Creating this new flag, therefore, was a no-brainer."

As with all Pro Pad Inc. products, the flag is 100% Made in the USA. This further supports the company's

unwavering commitment to all the things that made this country great. The flag makes this clear more than anything else. With an American bald eagle at its front, holding a gun in each talon, and the statement 'Right to Keep and Bear Arms' on a banner across it, the flag offers an all-American design.

The flag is available in two sizes, which are 6" by 9" and 10" by 15". Customers can also purchase a 9" or 13" pole if they do not already have one fitted to their bike. Finally, various pole toppers are also available, including a USA flag with eagle for those who truly want to show where they stand.

"All of our flags are made of a UV coated poplin that is machine washable," adds Mike Enzwiler. "This is a heavy duty material that supports outdoor durability. Each flag is double sided and double stitched and the sleeve will accommodate up to 3/8" diameter pole. The flag is 100% cut, printed, and sewn in the USA, in an effort to show our continued support to the people and the economy of our great nation."
